Chapter I: Director-General

The Director-General has full responsibility and authority to lead and manage SPC within the guidelines and policies established by the Conference of the Pacific Community and CRGA, in support of SPC's goal:

'Helping Pacific People achieve their development goals - a secure and prosperous Pacific Community, whose people are educated and healthy and manage their resources in an economically, environmentally and socially sustainable way'

Objectives

The Director-General is accountable to Conference and CRGA for progress in helping the region achieve the following outcomes:

- Sustainable economic development
- Sustainable natural resource and environmental management and development
- Sustainable human and social development

2015 Key Outputs – Core Funding:

- 1. Vision and leadership of SPC
- 2. Organisational policy and development
- 3. Work programme development and management ensuring SPC's contribution to achieving:
 - a. Sustainable economic development
 - b. Sustainable human and social development
 - c. Sustainable natural resources management and development
- 4. Financial security and the security of organisational property
- 5. Appointment and management of staff
- 6. Governing body meetings and annual reporting
- 7. National, regional and international relations
- 8. Commitment to the organisation and its role in delivering services to members and regional development
- 9. An efficient and effective secretariat

CHAPTER I - DIRECTOR-GENERAL'S OFFICE AND DEPUTY DIRECTORS!GENERAL

2014	Revised 2014	DIRECTOR-GENERAL	2015	2016	2017
		BUDGET			
811,200	1,313,200	Core	1,175,800	1,011,500	1,011,500
		Project			
	86,000	USA			
	86,000	Subtotal project			
811,200	1,399,200	TOTAL BUDGET	1,175,800	1,011,500	1,011,500

The above budget funds work - for which the Director-General is accountable to Conference and CRGA - to help the region achieve the following outcomes:

i) Sustainable economic development

ii) Sustainable natural resource and environmental management and development

iii) Sustainable human and social development

BudgetChapter 1Office/divisionDirector-General's Office and Deputy Directors-GeneralProgramme/sectionDeputy Director-General (Programmes)

Much of the general management and oversight of the offices of SPC is delegated to the Deputy Directors-General (DDGs). They have a major representational and liaison role with host country governments, other agencies located in Fiji and New Caledonia and, as appropriate, beyond the host countries. In addition, the DDGs have specific line management responsibilities and support the divisional heads and managers located in their respective directorates/offices.

The position of Deputy Director-General (Programmes) (DDG Programmes) has line responsibility for SPC's seven technical divisions.

Specific tasks include the coordination of multi-sectoral initiatives across SPC divisions and programmes. Examples are non-communicable diseases, climate change, and disaster risk reduction and management.

The role of the DDG (Programmes) includes ensuring that the work of the divisions is consistent with SPC's broader organisational priorities, budget allocations and strategic directions.

2015 Key Outputs

- Leadership and management coordination for the seven technical divisions and two specialised support groups on projects and climate change that comprise the Programmes Directorate to ensure budget allocations and strategic direction are consistent and all work matches agreed member and organisational priorities.
- Management of the directorate's operations, including budgetary expenditure and staff recruitment, management and development.
- Support for the Director-General in the development and implementation of organisational policy.
- Divisional strategic plans and joint country strategies aligned with SPC's corporate plan and policies.
- Continuous improvement and reform across the directorate to maximise the efficiency, coordination and effectiveness of the divisions' work and service delivery.
- Leadership and coordination for the development of the directorate's costed and funded work programme annually, in line with SPC's corporate plan and divisional strategic plans.
- Implementation of performance management tools to monitor service delivery and measure impacts, with results reported to members and donors.
- Leadership of resource mobilisation efforts to support the delivery of SPC's work programme.
- Development of the work programme budget in collaboration with the Deputy Director-General, Operations and Management Directorate, for consideration and approval by CRGA (Committee of Representatives of Governments and Administrations) annually.
- Financial management of the directorate and timely reporting by its divisions.
- Support for the Director-General in effectively servicing the organisation's governing body meetings.
- Leadership in the development of directorate working papers.
- Convening of technical divisional meetings in coordination with directors.
- Responsibility for the process of recruiting divisional directors and recommending their appointment to the Director-General, and for the recruitment, appointment and performance management of all other directorate staff following the recommendations of the divisional directors.
- Collaborative relationships with clients and diverse stakeholders, particularly those associated with SPC's technical and scientific work at national, regional and international levels.
- Representation of the Director-General as necessary.

CHAPTER I - DIRECTOR-GENERAL'S OFFICE AND DEPUTY DIRECTORS!GENERAL

2014	Revised 2014	DEPUTY DIRECTOR-GENERAL (PROGRAMMES)	2015	2016	2017
		BUDGET			
577,100	397,100	Core	790,200	823,000	834,400
10,069,700 579,100	9,837,700 1,640,900 86,300	Project European Union USA Other	11,674,900 859,100	7,218,600	5,380,100
10,648,800 11,225,900	11,564,900 11,962,000	Subtotal project TOTAL BUDGET	12,534,000 13,324,200	7,218,600 8,041,600	5,380,100 6,214,500

The above budget funds the work of the Office of the Deputy Director-General (Programmes) to achieve the following objectives:

i) Exercising line responsibility for SPC's seven technical divisions

ii) Coordinating multi-sectoral initiatives across SPC divisions and programmes (e.g. non-communicable diseases, climate change, and disaster risk reduction and management.

iii) Ensuring that the work of the division is consistent with SPC's broader organisational priorities, budget allocations, and strategic directions.

BudgetChapter 1Office/fivisionDirector-General's Office and Deputy Directors-GeneralProgramme/uectionDeputy Director-General (Operations and Management)

The Deputy Director-General (Operations and Management) (DDG OMD) has line management responsibility covering eight broad areas: administration, finance, human resources, information and communication technology, legal services, library services, publications, and translation and interpretation.

The DDG OMD is also tasked with the oversight of SPC's North Pacific Regional Office in Pohnpei, FSM; SPC's Solomon Islands Country Office, based in Honiara; and the Secretariat of the Pacific Islands Regional Multi-Country Coordinating Mechanism (PIRMCCM).

The DDG OMD is the focal point for SPC's francophone members (France, French Polynesia, New Caledonia, Wallis and Futuna).

Together with the Director of Human Resources, the DDG OMD is also the main contact for SPC's staff representative committees.

Objectives

- Excellent relationships with relevant stakeholders, in particular SPC member countries and territories, development partners and other collaborators such as regional and international agencies
- Leadership, vision and management support for SPC operations and management services, and other SPC programmes as appropriate
- Effective representation of sectoral interests and SPC at national, regional and international forums
- Effective contributions to achieving SPC's corporate objectives and strategies

2015 Key Outputs - Core Funding

(Executive and strategic management)

- Leadership of headquarters when required
- SPC operations managed in accordance with SPC's rules and procedures
- Active contributions to/leadership of SPC-wide projects such as the SPC 'change process' and other organisational development processes agreed to by the SPC Senior Leadership Team (SLT)
- Active support for the Director-General in his role as chief executive officer of the organisation
- Active support for and participation in the SLT team-building process

(Relationships with external stakeholders)

- Excellent relations with host countries, France and New Caledonia, and development of a long-term partnership agreement with New Caledonia,
- Oversight of issues related to membership of SPC and expansion of membership categories in liaison with member countries and territories
- Development and conclusion of a Memorandum of Understanding with the European Union
- Visits to several of SPC's members and development partners undertaken to enhance outreach and engagement
- Provide interviews to radio, television and print media on SPC's role and activities, to improve awareness of development challenges in the Pacific and SPC's contribution to addressing such challenges

(Functional management – managing people)

- Implementation of work plans of all operations and management services effectively supervised
- Oversight of North Pacific Regional Office and Solomon Islands Country Office provided
- Continue to hold regular meetings with SPC's staff representative committees (minimum 1 per quarter)
- Revise, with OMD teams, the five year strategic plan for the Operations and Management Directorate
- Continue bi-monthly OMD Management Team meetings to ensure information sharing and team cohesion
- Hold whole-of-OMD meetings with all Directorate staff, to inform them of major initiatives across the organisation and ensure staff have input to such processes
- Ensure all OMD departments/sections/units hold annual consultations with the Programmes Directorate divisions to facilitate work planning, anticipate needs for support and receive feedback on the quality of services provided

CHAPTER I - DIRECTOR-GENERAL'S OFFICE AND DEPUTY DIRECTORS!GENERAL

2014	Revised 2014	DEPUTY DIRECTOR-GENERAL (OPERATIONS AND MANAGEMENT)	2015	2016	2017
		BUDGET			
		BUDGET

		Project			
		Subtotal project			
379,300	259,300	TOTAL BUDGET	476,300	477,900	477,900

The above budget funds the work of the Office of the Deputy Director-General (Operations and Management) to achieve:

i) Excellent relationships with relevant stakeholders, in particular SPC member countries and territories, development partners and other collaborators such as regional and international agencies

ii) Leadership, vision and management support for SPC operations and management services, and other SPC programmes as appropriate

iii) Effective representation of sectoral interests and SPC at national, regional and international forums

iv) Effective contributions to achieving SPC's corporate objectives and strategies

This page intentionally left blank

The Deputy Director-General (Suva) (DDG Suva) leads and manages the Suva Regional Office and represents SPC in Fiji Islands, where a large number of stakeholders of SPC are located.

The DDG Suva provides leadership and management oversight of the Suva Regional Office in accordance with the corporate objectives and policies of the organisation.

This role also has responsibility for maintaining effective internal communication at the Suva Regional Office.

Objectives

- Excellent relationships with relevant stakeholders, in particular SPC member countries and territories, development partners and other collaborators such as regional and international agencies
- Leadership, vision and management support for SPC programme support services, and other SPC programmes as appropriate
- Effective representation of sectoral interests and SPC at national, regional and international forums
- Effective contributions to achieving SPC's corporate objectives and strategies

2015 Key Outputs - Core Funding

Executive and strategic management

- Leadership of the SPC Suva Regional Office
- SPC operations managed in accordance with SPC's rules and procedures
- Contributions made to SPC corporate projects

Relationships with external stakeholders

- Excellent relations maintained with the host country (Fiji) and with Suva-based embassies and development partners
- Pacific Village project advanced
- Visits to at least four of SPC's members undertaken

Functional management – managing people

• Delegated responsibility for personnel including recruitment, general administration and financial management for the Suva Regional office

CHAPTER I - DIRECTOR-GENERAL'S OFFICE AND DEPUTY DIRECTORS-GENERAL

2014	Revised 2014	DEPUTY DIRECTOR-GENERAL (SUVA)	2015	2016	2017
		BUDGET			
234,800	237,800	Core	239,500	240,500	240,500
		Project			
45,800	118,400	Other			
45,800	118,400	Subtotal project	-	-	-
280,600	356,200	TOTAL BUDGET	239,500	240,500	240,500

The above budget funds the work of the Office of the Deputy Director-General (Suva) to achieve the following objectives:

i) Excellent relationships with relevant stakeholders, in particular SPC member countries and territories, development partners and other collaborators such as regional and international agencies

ii) Leadership, vision and management support for SPC programme support services, and other SPC programmes as appropriate

iii) Effective representation of sectoral interests and SPC at national, regional and international forums

iv) Effective contributions to achieving SPC's corporate objectives and strategies

The Strategic Engagement, Policy and Planning Facility (SEPPF) is a specialist unit within the Director-General's Office. The **overall goal** for SEPPF is to support SPC's Senior Leadership Team (SLT) to enhance development effectiveness through strengthened partnerships with members and donors and improved management for development results.

Objectives

To achieve this goal, SEPPF focuses on the following objectives:

- 1) Strengthening External Relationships by serving as a coordination point for much of SPC's corporate engagement with external stakeholders. This includes facilitating the overarching strategic engagement of SPC with members (including an improved country programming processes) and facilitating resource mobilisation efforts and partnerships with donors.
- 2) Increasing Development Effectiveness by supporting SPC to refine and improve services for members to achieve better development results. This involves facilitating evidence-based outcome focused programme development, monitoring, evaluation and learning. SEPPF also supports the development of new processes to enable integrated programmatic approaches to addressing complex development challenges, and coordinates corporate reporting to members and donors.
- 3) *Facilitating strategic corporate initiatives such as* the corporate reform agenda priorities related to development effectiveness, managing the corporate strategic planning process and managing strategic corporate initiatives on behalf of SLT such as the governance review, full cost recovery analysis, emissions reduction strategy, and integrating youth into key areas of SPC's work.

Multi-sector climate change projects previously under SEPPF in 2013 have been transferred to the new Directorate of Programmes in 2014. This is reflected in the decrease in SEPPF's budget over the period.

2015 Key Outputs - Core and project funding

While Australia provides some project funding for SEPPF, this *supports* core SEPPF positions delivering core SEPPF work. As such there is no separation between core and project outputs.

- 1) Strengthening external relationships
 - a) New country programming process developed in consultation with members
 - b) Cross-divisional programmatic proposal developed and submitted for EDF 11 in consultation with working group
 - c) Multi-year funding agreement developed with at least 2 donors for at least 2 more SPC divisions

2) Increasing development effectiveness

- a) Updated corporate policy developed and endorsed by SLT for more evidence-based, outcomes focused, and integrated programme planning, monitoring, evaluation and learning (with supporting resources, training and tools)
- b) Advice and peer review provided to divisions in implementing improved SPC planning and monitoring, evaluation and learning (MEL) practices within each division and building MEL capacity

- c) Relevant and timely guidance or peer review provided on development of programme logic/theory of change analysis, monitoring and evaluation framework in development of key corporate strategies and programmes (e.g. on non-communicable diseases, European Development Fund 11 proposal, new country programming)
- d) Cross-divisional sharing and learning opportunities facilitated (e.g. at least 2 results workshops for senior managers, and more frequent learning events) to improve quality and effectiveness of services for members
- e) Enhanced quality and value of programme/project evaluations (at least 2 per year) through providing relevant and timely input into the terms of reference/evaluation plan, and participating in the evaluation
- f) Improved Programme Results Report presented for CRGA/Conference 2015
- g) 22 country programme reports presented for CRGA/Conference 2015

3) Facilitating strategic organisational development initiatives

- a) New Corporate Strategic Plan (2015 and beyond) drafted and presented to CRGA/Conference 2015 for endorsement
- b) Governance review completed and implemented
- c) Full cost recovery work consultancy completed and work passed to OMD
- d) Corporate reform agenda priority areas relating to development effectiveness are implemented (i.e. integrated programming approach, country programming process, monitoring, evaluation learning and improved results reporting)
- e) Relevant and timely input provided to improve decision-making process for Senior Leadership Team (including facilitating SLT retreat sessions, improving internal reporting on programme performance and working with IT and Finance on financial reporting)

CHAPTER I - DIRECTOR-GENERAL'S OFFICE AND DEPUTY DIRECTORS-GENERAL

The above budget funds the work of the Strategic Engagement, Policy and Planning Facility to achieve the following objectives:

i) Strengthening external relationships by serving as a coordination point for much of SPC's corporate engagement with external stakeholders.

ii) Increasing development effectiveness by supporting SPC to refine and improve services for members to achieve better development results

iii) Facilitating strategic corporate initiatives

This page intentionally left blank

SPC is committed to strengthening its public relations and communications capacity through the reestablishment of a dedicated organisational unit.

This new unit will incorporate the functions of the Regional Media Centre, in particular, its production capacity for the iconic Pacific Way series. Furthermore, this unit shall be responsible for enhanced public relations and improved internal communications.

2015 Key Outputs - Core Funding

- Staff recruited
- Resourcing consolidated
- External and internal communications strategies developed and implemented
- 46 episodes of the Pacific Way completed and aired regionally

CHAPTER I - DIRECTOR-GENERAL'S OFFICE AND DEPUTY DIRECTORS-GENERAL

The above budget funds the work of the Communications and Public Relations office, which aims to:

i) Ensure production the iconic Pacific Way Development Series

ii) Enhance public relations

iii) Improve internal communication

Budget	Chapter 2
Office/division	Applied Geoscience and Technology
Programme/section	Director's Office

The division consists of three programmes: the Geoscience for Development Programme (GDP), the Disaster Reduction Programme (DRP) and the Water and Sanitation Programme (WSP). The Director's Office provides oversight and support for the three programmes.

The vision of the division is to:

• Develop and apply geoscience and related policy and social science to advance Pacific developmental priorities. particularly poverty alleviation, environmental protection and enhancement, and sustainable and inclusive urban and rural development.

Objectives

The objectives of the Director's Office are to:

- Develop and maintain appropriate scientific and related capability to realise the division's vision
- Ensure that the division's focus is guided by Pacific Developmental need, international organisational best practice, and emerging trends and needs
- Improve infrastructure, quality of life, and attraction of high-quality and socially and environmentally responsible investment
- Create an open organisational environment that promotes staff loyalty and motivation and encourages innovation

2015 Key Outputs - Core Funding

- Ongoing review of division strategic plan carried out
- At least 80% of division work plan results achieved
- Consultation with heads of geoscience organised
- STAR Network coordination maintained
- Programme Monitoring and Evaluation Group process facilitated
- Overall management and responsibility taken for the division's work plan and budget, including the monthly divisional management meetings
- SPC and the division represented at major national, regional and international meetings
- Partnerships, interlinkages and synergies promoted within SPC and externally
- Media and communications work strengthened

2015 Key Outputs - Project Funding

Major project coordination

European Union, Australian Aid, New Zealand Aid Programme, GEF Ridge to Reef Project, Climate and Oceans Support Programme in the Pacific Project (COSPPAC), World Bank DRM Projects, FAO – GIS project, United States Agency for International Development (USAID) project

- Project reports and other necessary documentation provided on schedule to stakeholders
- Input to plans provided by project steering committee meetings
- Project results communicated effectively to stakeholders
- Project visibility requirements met
- Procurement of project goods and services completed efficiently and in compliance with SPC policies
- Satisfactory project audits completed for project accounts

CHAPTER II - APPLIED GEOSCIENCE 5 B8 TECHNOLOGY DIVISION (AGTD)

2014	Revised 2014	DIRECTOR'S OFFICE	2015	2016	2017
		BUDGET			
870,300	868,000	Core	964,500	967,000	967,000
		Project			
	114,600	FAO	114,600		
208,500	207,800	USA	102,000		
49,600	108,000	Other	13,200		
258,100	430,400	Subtotal project	229,800		
1,128,400	1,298,400	TOTAL BUDGET	1,194,300	967,000	967,000

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Develop and maintain appropriate scientific and related capability to realise the division's vision

ii) Ensure that the division's focus is guided by Pacific development needs, international organisation best practice, and emerging trends and needs

iii) Improve infrastructure, quality of life, and attraction of high-quality and socially and environmentally responsible investment

iv) Create an open organisational environment that promotes staff loyalty and motivation and encourages innovation.

Budget	Chapter 2
Office/division	Applied Geoscience and Technology
Programme/section	Disaster Reduction Programme

The Disaster Reduction Programme (DRP) provides PICTs with technical and policy advice and support to strengthen disaster risk management (DRM) practices. It carries out this responsibility in collaboration with other technical programme areas within the division and SPC, and also with a range of regional and international development partners and donors.

2015 Key Outputs - Core Funding

- Ongoing counterpart support provided for UNESCO (United Nations Educational, Scientific and Cultural Organization) Tsunami/Disaster Risk Reduction Programme
- Ongoing implementation of Pacific Disaster Net (PDN) information portal and PDN Strategic Plan
- Ongoing coordination support provided to the Pacific DRM Partnership Network
- Support for JICA DRM Programme
- Technical advice and support for the participation of Pacific island countries and territories at the 3rd World Conference on Disaster Risk Reduction in Sendai, Japan, March 2015
- Technical advice and support for a DRM and Climate Change inter-divisional programming approach in SPC
- Technical advice and support for the development of new opportunities for DRM institutional strengthening and capacity building for PICTs
- Programme management

2015 Key Outputs - Project Funding

EDF 10 ACP-EU Building Safety and Resilience in the Pacific

- Implementation of country implementation plans which include the implementation of actions in the following result areas: (1) effective preparedness, response and recovery; (2) strengthened institutional arrangements for DRM and climate change adaptation; (3) improved knowledge, information, public awareness, training and education; (4) improved understanding of natural hazards and their impacts, and; (5) enhanced partnerships in DRM and climate change
- Finalisation and approval of the Strategy for Climate and Disaster Resilient Development in the Pacific
- Finalisation of a compendium of case studies for DRM and climate change to highlight good practices during the period of implementation of the Pacific Disaster Risk Reduction and Disaster Management Framework for Action 2005–2015 and the Pacific Islands Framework for Action on Climate Change 2006–2015
- Finalisation of the Regional Synthesis Report on the implementation progress of the Pacific Disaster Risk Reduction and Disaster Management Framework for Action 2005–2015 and the Pacific Islands Framework for Action on Climate Change 2006–2015
- Support for the strengthening of the Pacific Islands Emergency Management Alliance, including but not limited to: the development of twinning arrangements between PICTs and members of the Australasian Fire and Emergency Services Authorities Council and Western Pacific Islands Association of Fire Chiefs; the development of incident management systems with associated protocols; the implementation of a DRM competency framework to develop more focused capacity building, and; the strengthening of leadership capacity amongst emergency/disaster management agencies
- Support for the establishment of the Pacific Resilience Partnership
- Conduct of the annual Regional Steering Committee meetings

World Bank: Phase 3 of the Pacific Catastrophe Risk Assessment and Financing Initiative

- Application 1: Institutional capacity building on disaster and climate risk financing with a specific focus on public financial management of natural disasters
- Application 2: Strengthening of the Pacific Risk Information System (PACRIS), which will include building the capacity of technical agencies at national and regional level in its use and maintenance
- Application 3: Rapid disaster impact estimation to provide an overview shortly before and following a disaster on the areas and population affected and the likely severity of the event

World Bank: Nadi Integrated Flood Management Project

- Delivery and adoption of standard operating procedures for flood warning services
- Use of a 2D flood inundation model and flood hazard and risk maps to recommend suitable flood mitigation measure and dissemination of the methodology
- Development and dissemination of integrated flood management policy documents outlining strategies and action plan

World Bank: Economic Impact of Disasters in the Pacific

- Establishment of a pool of regional sector experts in the application of post-disaster needs assessment (PDNA) and in particular damage and loss assessment (DALA) to support the Pacific Island countries in the event of a disaster and act as future trainers in DALA/PDNA
- Development of Pacific guidance manuals for PDNA/DALA, including training materials and a Pacificspecific handbook for conducting DALA/PDNA, and training experts to enable them train others to apply PDNA/DALA in practice
- Strengthening of the capacity of SPC to provide continuing support for PDNA/DALA

Asian Development Bank: Strengthening Disaster and Climate Risk Resilience in Urban Development

• Development of integrated tools for mainstreaming disaster and climate risks into urban and sector planning and building capacity of urban planners on its use

CHAPTER II - APPLIED GEOSCIENCE 5 B8 TECHNOLOGY DIVISION (AGTD)

2014	Revised 2014	DISASTER REDUCTION	2015	2016	2017
		DUDAET			
373,700	372,000	BUDGET Core	398,000	398,000	398,000
		Project

5,787,000	7,195,200	TOTAL BUDGET	8,827,900	4,724,500	3,855,900

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Provide PICTs with technical and policy advice and support to strengthen disaster riskmanagement (DRM) practices

ii) Collaborate with other technical programme areas within the division and SPC, and also with a range of regional and international development partners and donors.

This page intentionally left blank

BudgetChapter 2Office/divisionApplied Geoscience and TechnologyProgramme/sectionGeoscience for Development Programme

The Geoscience for Development Programme (GDP) works across a broad range of marine, coastal and island resource use, geological and applied science, vulnerability and climate change adaptation issues. It offers a range of specialist technical capacities, skills and tools in support of members' needs. GDP delivers these services to members and other SPC divisions. More specifically, GDP's technical role involves the collection and analysis of baseline data such as: terrestrial and marine non-living resources data, bathymetric products, maritime boundary data, oceanographic and geophysical data, topographic data, geological and geomorphologic assessments, environmental baseline data and mapping. The programme also delivers targeted policy advice on management of non-living resources.

2015 Key Outputs - Core Funding

- Petroleum database maintained for all relevant member countries
- Minerals Geology (junior geologist position)
- Geo-Network system provides easy and secure access to ocean, coastal, hydrographic and other geoscience observational data and products collected by GDP and other agencies (this output is jointly funded by New Zealand)
- Maritime Boundaries Programme:
 - Advice provided to PICTs on the technical development of maritime boundaries
 - Geodetic survey conducted in support of baseline definition
 - Analysis and computation undertaken on maritime boundary baselines, zones and limits and shared boundary solutions
 - Country maritime boundary technical teams and international technical partnership coordinated
 - Pacific Regional Island Maritime Boundary Information System maintained
 - Negotiations between PICTs facilitated
 - PICT maritime boundary teams trained
- Technical Workshop Services (joint funding from Australia and New Zealand)
 - Provision of specialist technical support to procure, maintain, calibrate, mobilise/demobilise oceanographic, hydrographic, geophysical, hydrological, geological and other technical equipment and instrumentation.
- Programme management, administration and consumables

2015 Key Outputs - Project Funding

EU-funded EDF10 Regional Project

Deep Sea Minerals in the Pacific Islands Region: a Legal, Environmental and Fiscal Framework for Sustainable Resource Management project

- Regional legislative and regulatory frameworks for offshore minerals exploration and mining developed
- National policy, legislation and regulations formulated for deep sea minerals
- National capacities in deep sea mineral policy, legislation and regulations built
- Offshore exploration and mining operations effectively managed and monitored
- Technical advice on environmental impact analysis related to deep sea mineral activities provided

EU-funded EDF9 Envelope C / EDF 10 Envelope B

Environmentally Safe Aggregates for Tarawa project (ESAT)

- An alternative supply of appropriately sourced material to meet South Tarawa's growing aggregate demand provided
- State-owned aggregates company and environmentally safe lagoon dredging operation established
- Effective control of beach mining established
- Community support for mobilising alternative sources of aggregates built and public access of lagoon sourced aggregates ensured
- Vulnerable beaches of South Tarawa protected from perturbation caused by aggregate mining
- The completion of refurbishments of the MV Tekimarawa dredging barge to reduce reliance on unsustainable beach mining for sand and gravel used for construction work

Australian Aid: (Climate and Ocean Support Program for the Pacific [COSPPac] - Bureau of Meteorology Australia)

PSMP – Pacific Sea Level Monitoring Project

- Routine survey, maintenance and calibration of the project sea-level monitoring stations and associated continuous GPS undertaken
- Maintenance visits undertaken
- Project Regional Coordinator position hosted, as well as communications strategy, monitoring of the array accounts, routine liaison with country focal points and budget development

New Zealand Aid Programme / ESAT

• Unexploded ordnance (UXO) survey of Tarawa aggregate resource area, Kiribati

New Zealand Aid Programme via consultancy

• Geophysical reconnaissance survey of Funafuti lagoon

EU-ACP Research Programme for Sustainable Development

• Changing Waves & Coasts in the Pacific project implemented

Pacific Agribusiness Research for Development Initiative (PARDI)

• Cultured pearl industries of Fiji and Tonga project supported

GIZ Coping with Climate Change in the Pacific Island Region (CCCPIR) Project / PARDI / New Zealand

• Installation of real-time water quality monitoring system to support the management of pearl industry in Manihiki, Cook Islands, and Savusavu, Fiji

Bilateral Niue / New Zealand

• Geotechnical and oceanographic support for wharf infrastructure feasibility study, Niue

EU-ACP / New Zealand

• Operational wave model for planned impact forecasting system, Viti Levu, Fiji

Bilateral Papua New Guinea / New Zealand

PNG Hydroelectric dam re-survey

• Multibeam bathymetry survey to examine and model the progress of sedimentation and impact to the Yonki Dam, an important renewable energy source providing hydroelectric power for the PNG economy and in particular the mining industry; recommendations provided

Australia Public Sector Linkages Program (PSLP) / New Zealand

• Capacity building in hydrography for coastal development

Pacific-Australia Climate Change Science Adaptation Planning program (PACCSAP)

• BIVA – Bonriki Inundation Vulnerability Assessment

World Bank

• Project design for the Pilot Program for Climate Resilience (PPCR)

New Zealand Ministry of Foreign Affairs and Trade (MFAT) / New Zealand Aid Programme

• Maritime safety hydrographical surveys for the modernisation of navigational charts, Vanuatu

New Zealand

• Marine geoscience technical advisory services – regional unscheduled advisory services

CHAPTER II - APPLIED GEOSCIENCE 5 B8 TECHNOLOGY DIVISION (AGTD)

2014	Revised 2014	GEOSCIENCE FOR DEVELOPMENT	2015	2016	2017
496 699	490,000	BUDGET	544 200	542,000	542.000
486,600	480,000	Core	511,200	512,000	512,000
		Programme Funding - Designated			
	676,600	New Zealand			
486,600	1,156,600	Subtotal - Core & Programme	511,200	512,000	512,000
		Project			
60,400	62,400	ACP	147,400		
832,000	827,600	Australia			
663,200	659,600	BOM Australia	551,700	1,221,200

	152,400	Geoscience Australia	323,400		
	390,600	New Zealand			
206,500	188,700	Other	365,900	640,800	486,000
		• • • • • • •			
5,568,400	6,199,500	Subtotal project	3,034,400	2,318,800	486,000
6,055,000	7,356,100	TOTAL BUDGET	3,545,600	2,830,800	998,000

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Work across a broad range of marine, coastal and island resource use, geological and applied science, vulnerability and climate change adaptation issues

ii) Collection and analysis of data: terrestrial and marine non-living resources data, bathymetric products, maritime boundary data, oceanographic and geophysical data, topographic data, geological and geometric assessments, environmental baseline data and mapping

iii) Delivery of targeted policy advice on management of non-living resources

The Water and Sanitation Programme provides support to SPC member countries through capacity building, awareness and advocacy related to the management of water resources and the provision of water supply and sanitation services.

2015 Key Outputs - Core Funding

- Water resources assessments to identify groundwater potential carried out
- Regional Water Resources database updated and maintained
- Support provided to hydro/meteorological post-disaster assessments and monitoring and inputs to disaster coordination and response provided
- Household water safety planning facilitated
- Coordination of Pacific WASH (Water, Sanitation and Hygiene) Coalition
- Facilitation of World Water Day 2015 celebrations in the Pacific region with partners
- Support to the 2015 Global Handwashing campaign provided.
- Gender mainstreaming and/or community participation or community WASH assessments conducted
- Dissemination of WASH resources to member countries and partners
- Continued review of rainwater harvesting guidelines and manual with water sector
- Continued efforts to establish a revised framework and process for the management of water and sanitation in the Pacific region

2015 Key Outputs - Project Funding

Global Environment Facility: Implementing Sustainable Water Resources and Wastewater Management in Pacific Island Countries (Pacific IWRM Project)

- Final reporting for the Global Environment Facility (GEF) funded Pacific IWRM Project implemented in cooperation with the implementing agencies United Nations Development Programme (UNDP) and United Nations Environment Programme (UNEP)
- Independent terminal evaluation undertaken and reported upon
- Media and communication products developed highlighting project achievements

Global Environment Facility: Ridge to Reef: Testing the Integration of Water, Land, Forest and Coastal Management to Preserve Ecosystem Services, Store, Improve Climate Resilience and Sustain Livelihoods in Pacific Island Countries (Pacific IW R2R Project)

- Project design prepared under a Project Preparation Grant Pacific IW R2R Project will be implemented in cooperation with the implementing agency UNDP
- Participation in National GEF R2R STAR projects as part of the Pacific Regional R2R multi-focal area programme funded by GEF and implemented in cooperation PICs and with the implementing agencies UNDP and UNEP and the Food and Agriculture Organization of the United Nations (FAO)

ACP Caribbean & Pacific Research Programme for Sustainable Development – Impact on a freshwater lens in atoll environments under different climate and abstraction scenarios

- Technical advisory groups consulted to develop practical management options for improved sustainability and resilience of the resource
- Selected field studies and hydrological modelling undertaken to determine effectiveness of management options commenced

EU/UNICEF Water and Sanitation in Kiribati Outer Islands Phase I (Kiriwatsan I)

- Rainwater and groundwater assessments completed and technical reports provided
- Preliminary designs for abstracting and capturing water for household/public use developed for use in Phase II
- Preliminary designs for sanitation facilities developed for use in Phase II
- On the job technical guidance and targeted training and capacity building continued where required
- Final close down activities as part of project cooperation agreement with UNICEF completed

EU Water and Sanitation in Kiribati Outer Islands Phase II (Kiriwatsan II)

- Project established including recruitment of team, initial consultations and engagement of the steering committee
- Consultations on design work and detailed system designs developed
- In-country capacity assessments and training programme designed with some training underway
- Communications and awareness programme initiated with the establishment of a network of community caretakers and development of a communications strategy

AusAID International Climate Change Adaptation Initiative (ICCAI) Tonga project – Building climate resilience of coastal communities in Vava'u, Tonga, through the use of integrated water and coastal management

- Continued strengthening of central and provincial governance mechanisms through integrated resource management
- Climate change adaptation options assessed and integrated into coastal zone management strategies
- Tongan language resource and awareness materials produced and distributed

Australian Aid International Climate Change Adaptation Initiative (ICCAI) Tokelau project – Strengthening the capacity of Tokelau to effectively manage freshwater resources for enhanced water security

- Water governance frameworks through IWRM strengthened
- Drinking water safety and water quality improved
- Water resource monitoring and assessment strengthened for long-term water security

Australian Aid International Climate Change Adaptation Initiative (ICCAI) Tuvalu Project (Funafuti)

- Consultation and design of infrastructure programme with government and stakeholders
- Infrastructure programme likely to include maintenance of rainwater harvesting infrastructure and augmentation of rainwater storage facilities in Funafuti

EU-funded Improved Drinking Water Supply for Kiritimati Island

- Rehabilitation of water supply systems for London and Tennessee completed
- Improved understanding of the condition and sustainability of Kiritimati Island's potable groundwater
- Improved supply of potable water supply to areas of London and Tennessee

New Zealand-funded Strengthening Water Security of Vulnerable Island States

- Inception activities carried out including establishment of the PMU, and governance structures in the five participating countries: Tuvalu, Kiribati, Cook Islands, Tokelau and Marshall Islands
- Initiating planning for activities across the result areas of the project including drought forecasting and assessment methodologies, water resources monitoring, effective community education and awareness programmes

CHAPTER II - APPLIED GEOSCIENCE AND TECHNOLOGY DIVISION (AGTD)

Budget 2014	Revised Budget 2014	WATER AND SANITATION	Budget 2015	Budget 2016	Budget 2017
		BUDGET			
346,100	347,000	Core	370,000	370,000	370,000

155,600	87,300	UNICEF			
250,200	270,100	Other	266,900	163,400	166,400
2,569,800	2,939,400	Subtotal project	3,217,400	2,882,400	1,565,700
2,915,900	3,286,400	TOTAL BUDGET	3,587,400	3,252,400	1,935,700

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Capacity building, awareness and advocacy related to the management of water resources

ii) Provision of water supply and sanitation services

This page intentionally left blank

The division consists of two programmes: the Energy Programme, and the Transport Programme. The Director's Office provides oversight and support for the two programmes.

The goal of the division is sustainable economic development through accessible, affordable, efficient, secure and safe energy and transport services.

Objectives

The objectives of the Director's Office are:

- Advising the Director-General and the SLT as well as development partners on sectoral policies relating to energy and transport;
- Programme support to both the Energy and Transport Programmes, in resource mobilisation (ensuring key principles of programmatic approach are incorporated), research and responding to corporate requirements
- Conducting economic policy and sustainability analysis to inform energy and transport sector interventions in line with country's development plan and strategies
- Monitoring and evaluation support for EDD thematic programmes and projects in alignment with EDD Strategic Plan and SPC Corporate Plan objectives and result areas
- Development and monitoring of the implementation of the division's annual work plans in close consultations with the thematic programmes
- Supporting strategic engagement of EDD Energy and Transport Programmes through communication and coordination of information pertaining to the work of the division

2015 Key Outputs – Core and Project Funding

Australia – Department of Foreign Affairs and Trade (DFAT) Aid Program

- Partnerships and meetings with key energy and transport agencies undertaken
- Administration services available for EDD programmes
- Information services (publications, communications and reporting) available for EDD programmes
- Database management services available for EDD programmes
- Economic and data analysis services available for EDD programmes
- Monitoring and evaluation services available for EDD programmes
- Policy and research advisory services available for EDD programmes

European Union – Micro Projects Program (MPP)

- Finalise grant guidelines
- Community-based monitoring and evaluation framework developed
- Call for micro project proposals (first phase)
- Implementation and monitoring of micro projects
- Identification of training required by communities to ensure income generating activities are implemented and sustained
- Formation of technical and steering working group

European Union – Rural Access Roads and Associated Infrastructure (RARAI)

- Recruitment of the project staff
- RARAI office established in Lautoka

- Detailed analysis of cane roads design
- Preparation of tender documents
- Call for tender for road rehabilitation
- RARAI 3 key result areas:
 - Result 1 Improved watershed management in specific sugarcane sectors through rehabilitation and maintenance of cane access roads including associated rural infrastructure
 - Result 2 Increased community/household income through their inclusion in the rehabilitation and maintenance of cane access roads including associated rural infrastructure
 - Result 3 Established road maintenance system (programme/plan)

CHAPTER III - ECONOMIC DEVELOPMENT DIVISION

2014	Revised 2014	DIRECTOR'S OFFICE	2015	2016	2017
		BUDGET			
177,500	178,000	Core	182,500	184,000	184,000
		Project			
288,600	266,700	Australia	202,700	117,100	198,400
	3,062,100	European Union	8,465,400	6,327,000	2,715,000
288,600	3,328,800	Subtotal Project	8,668,100	6,444,100	2,913,400
466,100	3,506,800	TOTAL BUDGET	8,850,600	6,628,100	3,097,400

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Advising the Director-General and SLT as well as development partners on sectoral policies relating to energy and transport

ii) Programme support to both the Energy and Transport Programmes, in resource mobilisation (ensuring key principles of programmatic approach are incorporated), research and responding to corporate requirements

iii) Conducting economic policy and sustainability analysis to inform energy and transport sector interventions in line with country's development plan and strategies

iv) Monitoring and evaluation support for EDD thematic programmes and projects in alignment with EDD Strategic Plan and SPC Corporate Plan objectives and result areas

v) Development and monitoring of the implementation of the division's annual work plans in close consultations with the thematic programmes

vi) Supporting strategic engagement of EDD Energy and Transport Programmes through communication and coordination of information pertaining to the work of the division

This page intentionally left blank

Budget	Chapter 3
Office/division	Economic Development
Programme/section	Energy Programme

The goal of the Energy Programme is to assist PICTs to achieve a secure, affordable, clean and efficient supply and use of energy for sustainable development.

Objective

The objective of the programme is to strengthen the capacity of PICTs to effectively manage their energy sector so that all people at all times have access to sufficient sustainable sources of clean and affordable energy and services to enhance their social and economic well-being.

2015 Key Outputs - Core Funding

Australia – Department of Foreign Affairs and Trade (DFAT) Aid Program

- SPC fulfils coordination and lead role in energy through convening of the meetings of the Pacific Energy Oversight Group and the Pacific Energy Advisory Group and participation in meetings of the energy donors working group
- The revised Implementation Plan for the Framework for Action on Energy Security in the Pacific adopted
- Regular progress reports on the implementation of the Framework for Action on Energy Security in the Pacific produced
- Existing partnerships with CROP agencies, GIZ, International Renewable Energy Agency, Pacific Regional Infrastructure Facility, SIDS Dock, United Nations Industrial Development Organization, United Nations Environment Programme, other centres of excellence on renewable energy and energy efficiency and universities strengthened and new relationships with new partners fostered
- Close alignment of the Pacific energy initiatives to the UN's Sustainable Energy for All (SE4ALL) initiative
- Establishment of the Pacific Centre for Renewable Energy and Energy Efficiency
- The *Pacific Energiser* newsletter is produced and disseminated quarterly

2015 Key Outputs - Project Funding

Australia – Pacific Appliance Labelling and Standards (PALS) project

- Pacific Appliance and Energy Efficiency Standards legislation is reviewed/drafted in 2 PICTs
- Minimum energy performance standards and labelling regulations are enforced in three PICTs
- Energy standards and labelling public awareness campaigns are completed in three PICTs
- At least 60 government officials are trained on product registration relating to standards and labelling
- At least 100 people (government officials, border control officers, regulatory officers, retailers and suppliers) are trained on standards and labelling
- Continued employment and hands-on training of project-paid national coordinators in Samoa, Tonga and Vanuatu

Australia – Department of Foreign Affairs and Trade (DFAT) Aid Program

• Technical assistance provided to at least one PICT to support adoption of a national energy policy/roadmap/strategy and investment plan

- Energy policy, regulatory frameworks and roadmaps
 - The Kiribati Integrated Energy Roadmap is drafted and adopted
 - Technical assistance provided to at least one PICT to support adoption of a national energy policy/roadmap/strategy and investment plan
- Energy affordability and safety
 - Two research studies completed on the socio-economic impacts of the movements in petroleum and electricity prices and the fuel consumption and efficiency of the transport sector
 - A regional Code of Practice developed to guide PICT petroleum industry participants and government regulators to improve operating, safety and environmental performance to acceptable international standards.
 - Appropriate training programs on handling of dangerous goods established at recognised regional institutions within PICTs
 - Technical assistance on petroleum related issues and price regulatory and monitoring advice provided to PICTs for petroleum fuels and energy gas.
 - Asia/Pacific petroleum market information and PICT comparative petroleum fuel pricing information gathered, analysed and regularly disseminated to PICTs
- Improving energy access through Cooking for Life Project
 - Adoption of the Cooking for Life Strategy in Kiribati
 - 50% of the targeted households have replaced kerosene and firewood with LPG for cooking in Kiribati
 - Tuvalu Cooking for Life Strategy developed
 - Improving energy access through Bicycles for Capitals Project
 - o 30 bicycles introduced as means of transport in Nauru, Niue and Tuvalu
 - Project awareness programme implemented in Niue, Nauru and Tuvalu
- Improving energy access through Melanesian Million Miracle Program (M3P)
 - 100 households in the Kou Kou and Gorari villages, in Oro Province, Papua New Guinea (PNG) along the Kokoda Track have access to solar electricity
 - 215 households at Faseu Village, Morobe Province, PNG have access to hydroelectricity power supply
 - 100 households in Tavula, Taba, Tepazaka and Vuruvachu in Choiseul Province, Solomon Islands have access to solar electricity
 - 100 households in the villages of White Sands and Port Resolution on Tanna, in the province of Tafea in Vanuatu will have access to solar electricity
 - 50 women in the targeted communities in PNG, Solomon Islands and Vanuatu receive technical and business management training from the project
 - 2 well equipped solar shops are established in the target communities in PNG, Vanuatu and Solomon Islands
- Knowledge management

•

- Energy security indicators updated to 2012
- Stocktake of the energy policy and regulations in PICTs published
- o Matrix of energy sector activities in PICTs updated
- The Energy Data Base / the Pacific Regional Data Repository is fully functional and national capacity in all PICTs strengthened

European Union – North-REP

- 2014 financial audit completed
- Final Project Steering Committee PSC subregional meeting

- Renewable energy awareness and training materials produced and disseminated
- Renewable energy and energy efficiency training programmes offered by local training institutes
- As part of North-REP, ongoing solar and wind resource assessments are completed; local and subregional training conducted
- Compilation of Part 2 of 'North-REP Empowering the Communities'
- North-REP handover ceremonies
- Attendance at relevant energy regional conferences /meetings

European Union – Pacific Technical and Vocational Education and Training on Sustainable Energy and Climate Change Adaptation (PATVET)

- TVET inception phase workshop completed
- TVET benchmarks, competency standards and unit descriptions developed
- TVET accreditation strategy developed and pool of accreditors trained
- Pathways developed and trainers and educators linked
- Implementation and establishment of learning communities and networks of practitioners
- Gaps in networking identified to strengthen communications between national TVET providers
- Inter-TVET information and experience exchange promoted, as well as staff exchange and interinstitution training of trainers on sustainable energy and climate change adaptation
- Sub-networks established with PATVET for sustainable energy and climate change adaptation practitioners at the TVET and informal education level depending on demand
- PATVET and individual institutions linked into the sustainable energy and climate change adaptation networks

Multiple donors (ex- SOPAC/REEEP)

- Clean energy sources and efficient use of energy in cooking promoted
- Rural electrification effort in PNG, Solomon Islands and Vanuatu supported

United Nations Environment Programme (UNEP)

- Convened multi-stakeholder technical validation workshop on regional efficient lighting
- Draft Regional Efficient Lighting Strategy completed, presented and endorsed.

5,831,700	7,835,000	TOTAL BUDGET	3,558,300	2,774,000	2,088,000

The above budget is to fund work aimed at achieving the following key goals and objectives in the division's strategic plan:

Goal - to assist PICTs to achieve a secure, affordable, clean and efficient supply and use of energy for sustainable development

Objective - to strengthen the capacity of PICTs to effectively manage their energy sector so that all people at all times have access to sufficient sustainable sources of clean and affordable energy and services to enhance their social and economic well-being

Budget	Chapter 3
Office/division	Economic Development
Programme/section	Transport Programme

The goal of the Transport Programme is safe, secure and efficient transport services for sustainable development.

Objective

The objective of the programme is to strengthen the capacity of PICTs to effectively manage their transport sector so that all people at all times have access to safe, secure, affordable, reliable and efficient transport services.

2015 Key Outputs - Core and Project Funding

Australia – Department of Foreign Affairs and Trade (DFAT) Aid Program

- Assistance provided to PICTs to review, update and develop maritime and aviation policy and legislative frameworks:
 - Ongoing review and update of generic model legislation and regulations for maritime transport
 - Review of the regional Framework for Action on Transport Services (FATS) and the regional Transport Services Implementation Plan (TSIP)
- Ongoing review, update and development of maritime sector training modules by SPC in collaboration with the Pacific Islands Maritime Association (PacMA) and Pacific Maritime Transport Alliance (PMTA)
- Appropriate ongoing support to provided to PICTs for maritime transport
 - Secretariat support provided to the shipping commissions (Central Pacific Shipping Commission (CPSC) and Eastern Pacific Shipping Commission (EPSC)
 - At least ten maritime security and safety compliance audits completed for PICT maritime regulators, maritime training institutes and ports
 - At least two domestic ship safety audits completed in two PICTs
- Training courses and workshops successfully completed
 - At least one pilotage training course completed
 - At least two port worker safety training courses completed
 - o At least four secondments of surveyors or port workers completed
 - Ongoing bridge simulator training and support provided to trainers in maritime training institutes
 - Four workshops provided for the Pacific Maritime Transport Alliance (PMTA) and PacMA subcommittees held to advance training, safety or auditing work
- Expansion and refinement of regional transport data repository
 - Internal databases remodelled as reliable data platforms
 - Ongoing maritime trade data collected and analysed
 - Aviation data and information collated and available for stakeholders
- Key technical transport publications produced and disseminated
 - o 12 issues of *Aviation Bulletin* produced
 - Four issues of *Pacific Maritime Watch* newsletter produced and disseminated in hardcopy and electronic format
 - At least eight issues each of maritime safety, security, technical, port and legal advisories produced

- Two issues of *Pacific Skies* aviation magazine produced, which include briefs on policy and technical issues
- Appropriate ongoing support on issues related to aviation in the Pacific
 - Relationship between SPC and the Association of South Pacific Airlines further developed through joint activities
 - o Ad hoc aviation advice provided to requesting member countries

CHAPTER III - ECONOMIC DEVELOPMENT DIVISION

Budget	Chapter 4
Office/division	Education, Training and Human Development Division
Programme/section	Secretariat of the Pacific Board for Educational Quality (SPBEQ)

Overview

The recommendations of the Independent Review Committee on the future of SPBEA were endorsed by CRGA 2013, which acknowledged the important role of the Secretariat in improving the quality of education in the region and the need to expand its mandate to meet the needs of the countries. SPBEQ is now implementing its new mandate under the respective work programmes of each section as outlined below.

1. Assessment Section

This section supports the improvement of the quality of education through the use of high-quality assessment practices and use of assessment data to develop effective intervention to improve learners' achievement.

Key areas of focus for 2015:

- Support and improve the assessment of literacy, numeracy and life skills in the region
- Support and improve the standard of regional and national secondary qualifications
- Provide support to Pacific Island countries in response to their needs in educational assessment
- Strengthen assessment literacy of stakeholders in the countries

2015 Key Outputs - Core Funding

- Regional Assessment Resource Tool for Teaching and Learning (ARTTLe) training provided to countries
- Capacity building and training of teachers and education officers on assessment for learning
- South Pacific Form Seven Certificate (SPFSC) outcomes based and administered in the countries
- Capacity of examination and assessment units strengthened to manage and implement qualifications effectively
- Technical and advisory support to member countries in maintaining standard of national form 6 qualifications
- Capacity building of SPFSC task writers, examiners and moderators
- SPFSC internal and external assessment tasks developed, reviewed and administered
- SPFSC prescriptions reviewed
- SPFSC promoted in all SPC member countries
- Outcomes-based reporting incorporated into the reporting of SPFSC results
- Outcomes-based approach promoted to member countries to be introduced to national and school systems

2015 Key Outputs - Project Funding

- National ARTTLe developed in countries
- Use of national ARTTLe monitored in the countries
- Pacific Islands Literacy and Numeracy Assessment (PILNA) instruments revised
- PILNA instruments developed
- Implementation of PILNA 2015 in 15 countries
- Analysis of PILNA 2015 results
- Regional Report on PILNA 2015
- Country reports on PILNA 2015
- Printing, packaging and distribution of PILNA

2. Teaching, Learning and Curriculum Section

This section supports capacity development of education systems to improve teaching effectiveness and learning achievement through the development and implementation of national teacher standards, appraisal instruments and intervention resources.

Key areas of focus for 2015:

• Improve teacher effectiveness and learning achievement

- Develop teacher appraisals to assess teacher effectiveness
- Enhance teacher effectiveness through professional development and use of intervention strategies

2015 Key Outputs - Core Funding

- Professional standard for teachers in place in countries
- Tools and instrument available to facilitate the appraisal of performance of teachers based on standards
- Ongoing professional development based on results from appraisal instruments
- Teachers and school leaders trained on teacher standards, instruments and tools
- Systematic and effective national intervention programme in place
- Curriculum and teacher institution trained on the use of outcome-based approach

3. Policy and Leadership Section

The Policy and Leadership Section supports the improvement of the quality of school leadership and the benchmarking of policy, education systems and educational results for improvement of learning outcomes in the Pacific region.

Key areas of focus for 2015

- Support countries in establishing professional standards for school leaders
- Support countries in establishing policy benchmarking practices to inform the development of policies influencing students' performance
- Support countries in gathering evidence-based on policy in practice and investigate best practices in policy implementation
- Strengthen capacity in education policy development

2015 Key Outputs - Project Funding

- PILNA Instruments used in 2012 reviewed, trialled and peer reviewed, ready for use to collect data
- Country Report on Teacher Quality based on application of the SABER (System Assessment Benchmarking Education Results) and supplementary tools validated
- Country specific issues regarding teacher quality in pilot countries identified
- Key stakeholders in pilot countries aware of key issues relating to teacher quality and student assessment in pilot countries
- Data collected on data collection interviews analysed and issues identified
- Capacity building of key stakeholders appropriate intervention programmes designed
- Valid and reliable data on capacity situation on school governance, teacher quality and on curriculum and materials in pilot countries available
- Issues and lessons learnt from policy situation on teacher quality, school governance and curriculum and materials among pilot countries available and used to drive interventions
- All relevant documents translated into the vernacular (or language of data collection) and data collections users familiar with documents and use
- Printing, packaging and distribution of PILNA to PaBER (Pacific Benchmarking for Education Results) countries
- Development of institutional capacity analysis instruments for teachers, student assessment, school governance and management, curriculum
- National principal standards developed and aligned to the Regional Principal Standards
- Principal appraisal instruments and tools developed
- Report on principal effectiveness and use of data for planning professional development programme to improve school leadership
- Policies on SPBEQs' area of competence revised and developed
- Data collection of regional education policy database

4. Research Section

The Research Section supports the use educational research to strengthen the development and implementation of regional and national educational initiatives to achieve high-quality education.

Key areas of focus for 2015:

- SPBEQ initiatives and research activities
- Development of SPBEQ research environment
- National research activities
- Regional research activities

2015 Key Outputs - Core Funding

- Country research needs identified
- Training on research conducted
- Research project and work carried out
- National research reports completed and submitted
- Research papers published

5. Accreditation and Standards Section

The Accreditation and Standards Section establishes the comparability and international recognition of Pacific qualifications and standards, improves the quality of Pacific qualifications and standards, supports the mobility of Pacific learners and labour and facilitates relevant and timely support of national accrediting agencies.

Key areas of focus for 2015:

- Comparability and recognition of Pacific qualifications and standards
- Establish and maintain high standards of Pacific education and training
- Support labour and learner mobility
- Support accrediting agencies

2015 Key Outputs - Project Funding

- Regional register of qualifications and standards populated and maintained
- Capacity of national and regional accrediting agencies supported
- Quality assurance activities for monitoring education and training completed
- Forum for representatives of accrediting agencies and institutions of education and training established
- Quality assurance system governing the delivery of post-school education and training services developed
- Capacity within assessment units in trial countries built

6. Scholarships Unit

The scholarships unit supports the selection of candidates for the Australian Government scholarships offered to Pacific Island countries.

Key areas of focus for 2015:

- Process and forward scholarship applications from member agencies in accordance with contract specifications
- Provide high-quality scholarship management services
- Maintain sound educational philosophy in the assessment of applications

2015 Key Outputs - Project Funding

- Scholarship applications from member agencies processed and returned to Australian Government
- Contractual obligations met
- Assessment reports compiled and submitted
- Response to Australian Government request for tender submitted

CHAPTER IV - EDUCATION, TRAINING AND HUMAN DEVELOPMENT DIVISION

2014	Revised 2014	SECRETARIAT OF THE PACIFIC BOARD FOR EDUCATIONAL QUALITY	2015	2016	2017
		BUDGET			
1,171,000	1,124,300	Core	1,142,800	1,054,400	1,054,400
		Project			
2,563,600	1,677,600 88,100	Australia Tonga	1,938,600	859,900	
13,700	13,400	UNICEF			
2,577,300	1,779,100	Subtotal project	1,938,600	859,900	
3,748,300	2,903,400	TOTAL BUDGET	3,081,400	1,914,300	1,054,400

The above budget is to fund work aimed at achieving the following key sections in the division's strategic plan:

i) Assessment Section

The Assessment Section supports the improvement of the quality of education through the use of high-quality assessment practices and use of assessment data to develop effective intervention to improve learners' achievement.

ii) Teaching, Learning and Curriculum Section

This section supports capacity development of education systems to improve teaching effectiveness and learning achievement through the development and implementation of national teacher standards, appraisal instruments and intervention resources.

iii) Policy and Leadership Section

The Policy and Leadership Section supports the improvement of the quality of school leadership and the benchmarking of policy, education systems and educational results for improvement of learning outcomes in the Pacific region.

iv) Research Section

The Research Section supports the use educational research to strengthen the development and implementation of regional and national educational initiatives to achieve high-quality education.

v) Accreditation and Standards Section

The Accreditation and Standards Section establishes the comparability and international recognition of Pacific qualifications and standards, improves the quality of Pacific qualifications and standards, supports the mobility of Pacific learners and labour and facilitates relevant and timely support of national accrediting agencies.

vi) Scholarships Unit

The Scholarships Unit supports the selection of candidates for the Australian Government scholarships offered to Pacific Island countries.

The Human Development Programme supports PICTs with the design and delivery of social policy, programmes and services.

Objectives

- Assist the adoption and implementation of an integrated approach to social policy, programmes and services
- Build national-level capacity to respond to human and social development needs
- Develop and strengthen networks and partnerships and improve coordination of social and human development programmes and services
- Strengthen knowledge and approaches for improved human development

2015 Key Outputs - Core Funding

- Technical and advisory support and training provided for strengthening gender mainstreaming at the national level: policy review in 2 countries (Wallis and Futuna, French Polynesia) and sectoral policies and strategies in the French territories; and continuing work on improving the availability, analysis and use of better statistics on culture, gender equality and youth
- Review of the Pacific Platform for Action on Gender Equality and the Advancement of Women
- Coordination, monitoring and technical and advisory support provided for the review and implementation of regional gender equality commitments in partnership with the Pacific Island Forum Secretariat, including at the Commission on the Status for Women; the review of the Beijing Platform for Action + 20
- Cultural policy development assistance provided to Wallis and Futuna and French Polynesia
- Review of the Pacific Regional Culture Strategy: Investing in Culture, 2010–2020
- Review of the Pacific Culture and Education Strategy 2010–2015
- Technical assistance provided to the Pacific Heritage Hub to support its activities
- Continued technical and advisory support for preparations for the 12th Festival of Pacific Arts to be held in Guam in 2016; including ongoing work on the festival manual
- Improved knowledge sharing and capacity building facilitated within the SIDS network around cultural policy; cultural industries; heritage and museums and conservation of nature and culture
- Technical assistance to SPC in implementing gender mainstreaming strategy and building capacity in sectoral gender analysis

2015 Key Outputs - Project Funding

Australia/Pacific Leadership Programme – Support for the Pacific Youth Council

- Capacity building provided facilitating the widening network of national youth councils in the region
- Support provided for the implementation of the Pacific Youth Council Strategic Plan 2013–2016

Australia/Pacific Women Shaping Pacific Development Programme – Progressing Gender Equality in Pacific Island Countries and Territories

• Technical and advisory support and training provided for strengthening gender mainstreaming at the national level, including follow-up to the gender stocktakes in 8 countries and support for improved gender equality statistics and indicators of development in 6 countries

European Union – ACP Cultures Initiative Enhancing the Pacific Cultural Industries: Fiji, Samoa and Solomon Islands

• Technical and advisory support provided for cultural industry strengthening

Commonwealth Foundation

• Film sector development

CHAPTER IV - EDUCATION, TRAINING 5 B8 HUMAN DEVELOPMENT DIVISION

2014	Revised 2014	HUMAN DEVELOPMENT	2015	2016	2017
		BUDGET			
814,100	814,100	Core	852,900	866,700	866,700

34,200		France			
273,600	294,500	European Union	236,200	88,000	
30,000		Other			
1,251,200	583,200	Subtotal Project	988,600	972,300	588,500
2,065,300	1,397,300	TOTAL BUDGET	1,841,500	1,839,000	1,455,200

The above budget is to fund work aimed at achieving the following key goals and objectives in the division's strategic plan:

i) Assist the adoption and implementation of an integrated approach to social policy, programmes and services

ii) Build national-level capacity to respond to human and social development needs

Budget	Chapter 4
Office/division	Education, Training and Human Development
Programme/section	Regional Rights Resource Team (RRRT)

The Regional Rights Resource Team provides policy advice, technical support and training services to respond to the human rights priority areas for the region such as gender equality, violence against women and children, HIV, disability and climate change.

Objectives

- Increased observance of human rights and good governance standards by decision-makers
- Increased observance of human rights and good governance standards by agencies and governments providing services to the public
- Increased capacity of civil society to monitor and advocate for human rights and good governance standards
- A mandate, in partnership with PIFS and other stakeholders, to establish national and regional human rights mechanisms in order to assist PICTs with meeting human rights and governance standards to enhance development

2015 Key Outputs – Project Funding

Australian Aid

- Provision of 8 full-time country focal officers to relevant ministries working to address violence against women / gender equality and human rights in: Nauru, FSM, Tonga, Solomon Islands, Vanuatu, Tuvalu, Kiribati and Samoa
- Provision of human rights law and family law training to graduating lawyers through the Pacific Diploma in Legal Practice; 4 training weeks / year
- Annual regional consultations provided on human rights law and policy for members of parliament and subregional consultations for lay magistrates and regional lawyers; biennial consultations provided for judges and senior magistrates evidenced by increased number of human rights cases in Pacific courts
- Annual subregional consultation provided on addressing violence against women through legislative change evidenced by increase in legislative change in addressing violence against women
- Support provided to government and civil society organisations in progressing disability rights through national-level training on the ratification and reporting and domestication of the Convention on the Rights of Persons with Disabilities 3 PICTs per annum evidenced by increase in numbers of PICTs who have developed disability policies, legislation, and disability reports
- Support provided to government and civil society organisations in advancing women's equality and women's rights through national-level training on the domestication and implementation of the Convention on the Elimination of all forms of Discrimination Against Women 3 PICTs per annum evidenced by increase in legislation and policies advancing gender equality
- Provision of national-level training in 2 PICTs on human rights reporting and ratification for government and civil society, including support to Universal Periodic Review reporting Kiribati and Marshall Islands for 2014 increase in human rights reporting by civil society organisations
- Completion of draft domestic violence bill for Tuvalu ongoing work
- Support to development of regulations for the PNG Family Protection Act
- Support provided to national-level consultations on draft domestic violence bills for Tuvalu, Solomon Islands and Kiribati and development of legislative implementation plans
- Completion of draft domestic violence bill implementation plans for Kiribati
- Support provided to policy development to comprehensively address violence against women upon request

- Support provided to regional civil society to participate in regional forums on emerging human rights issues inclusion of civil society in annual regional training
- Support provided to scholarship programme and monitoring of the Diploma in Leadership, Governance and Human Rights (in partnership with USP)

Pacific Leadership Programme

• Provision of training to government and civil society actors in legislative and policy strategic change, including addressing gender discrimination – 8 PICTs; 1 training workshop annually plus mentoring and monitoring activities; evidenced by an increase in successful campaigns per country

UN Women

• Provision of training to Pacific elimination of violence against women grantees in legislative and policy strategic change to address sexual and gender-based violence and gender discrimination; grantees able to undertake campaigns on VAW

European Union – Empowering civil society to promote gender equality and combat gender discrimination in Solomon Islands

- 20 community-based focal points trained in human rights and gender discrimination
- Collection of data on gender discrimination in 9 provinces
- 1 national-level gender forum held
- 1 national report on gender discrimination produced
- Support provided to national-level lawyers working on gender discrimination cases ongoing liaison

European Union – Pacific Islands Forum Secretariat – Assistance towards increasing the rate of Pacific Islands' ratification and implementation of human rights treaties

- Publication of Statistical Indicators Guide to Human Rights Report for the Pacific
- Training and capacity building provided for regional lawyers, members of parliament and support to regional judges and magistrates (funded under DFAT)
- Mentoring and training provided for 8 national human rights officers
- Capacity building training provided for relevant state departments and NGOs on data collection /information for treaty reporting
- Evidenced by an increase in treaty reporting; reduction in overdue human rights reports

UPR – Universal Periodic Review

- Assisting PICs; government and civil society in monitoring previous UPR commitments, plus developing the 2nd round UPR report through seminars and working sessions at the national level with PIC governments and stakeholders (Marshall Islands, FSM, Nauru, Palau, Solomon Islands, Samoa and Papua New Guinea); 7 national level training, capacity building and facilitation interventions in partnership with OHCHR and PIFS where required
- Providing technical support to states between reporting cycles in order to assist with the planning for implementations of human rights commitments (all reporting states) as well as mid-term reports as required; requires one subregional intervention in partnership with OHCHR
- Supporting Pacific civil society in preparing to report, through the provision of extra support to NGOs at the national level, and by linking civil society to extra resources which might enable them to hold 'side events' at the UN Human Rights Council in Geneva; 5 national workshops for mentoring and reporting, plus inclusion of civil society representations into the subregional events

CHAPTER IV - EDUCATION, TRAINING AND HUMAN DEVELOPMENT DIVISION

2014	Revised 2014	PACIFIC REGIONAL RIGHTS RESOURCE TEAM	2015	2016	2017
		BUDGET

BudgetChapter 5Office/divisionFisheries, Aquaculture and Marine EcosystemsProgramme/sectionDirector's Office

The Division consists of two programmes: the Oceanic Fisheries Programme (OFP) and the Coastal Fisheries Programme (CFP).

The Director's Office provides oversight and support for both programmes and has the role of coordinating the work of the Coastal and Oceanic Fisheries programmes in support of the Division's goal.

The goal of the division is:

• Marine resources of the Pacific Islands region are sustainably managed for economic growth, food security and environmental conservation.

Objectives

- Develop and sustain effective relationships between the division and its stakeholders
- Promote informed policy decisions and public awareness of marine resource issues and climate change in Pacific Island countries and territories

2015 Key Outputs - Core Funding

- Programme plans and activities respond to the needs and priorities of members
- Effective working relationships maintained with other regional agencies and donors
- 90% of FAME work plan results for 2015 achieved
- Policy-makers and the general public better informed of fisheries resource issues, climate change impacts, the importance of fisheries and the need for management action
- Heads of Fisheries meeting organised as part of broader technical meeting
- Joint SPC/FFA ministerial meeting
- Regional ocean policy initiatives progressed by Marine Sector Working Group supported by the Pacific Ocean Alliance
- Reports on FAME donor funded projects submitted on schedule.
- Three fisheries policy briefs produced and distributed to member countries
- 2015 Fisheries Address Book compiled and distributed
- New marine resource educational materials produced for schools for two SPC member countries
- Fisheries information and awareness materials produced and distributed to member countries.
- Two national fisheries staff trained in information and communications
- Stakeholders in PICTs fully informed of the results of FAME activities, and shared experience and knowledge across the region

CHAPTER V - FISHERIES, AQUACULTURE 5 B8 MARINE ECOSYSTEMS DIVISION

2014	Revised 2014	DIRECTOR'S OFFICE	2015	2016	2017
		BUDGET			
316,600	316,600	Core	308,200	310,200	310,200
		Project			
		Subtotal project			
316,600	316,600	TOTAL BUDGET	308,200	310,200	310,200

The above budget is to fund work aimed at achieving the following key goals and objectives in the division's strategic plan:

The goal of the division is:

- Marine resources of the Pacific Islands region are sustainably managed for economic growth, food security and environmental conservation.

Objectives

i) Develop and sustain effective relationships between the division and its stakeholders

ii) Promote informed policy decisions and public awareness of marine resource issues and climate change in Pacific Island countries and territories

Budget	Chapter 5
Office/division	Fisheries, Aquaculture and Marine Ecosystems
Programme/section	Coastal Fisheries Programme

The goal of the Coastal Fisheries Programme is:

• Coastal fisheries, nearshore fisheries and aquaculture in Pacific Island countries and territories are managed and developed sustainably

Objectives

- Assist governments and administrations in the development of scientifically informed and socially achievable coastal fisheries management policies and systems in line with the guiding principles of the 'Apia Policy'
- Provide a regional framework for sustainable aquaculture, in the areas of planning, research, development and trade, for Pacific Island governments, private enterprises and other stakeholders.
- Develop sustainable nearshore fisheries in PICTs to provide food security, livelihoods, economic growth and climate change adaptation

2015 Key Outputs - Core Funding

- 3 national coastal finfish or invertebrate fisheries managed sustainably through a management plan
- 1 review of national fisheries legislation completed and submitted to government for finalisation
- 2 countries assisted with institutional strengthening of their fisheries department in collaboration with FFA
- 2 sustainable FAD (fish aggregating device) programmes established with ongoing data collection
- 30 small-scale fishers trained and using FAD fishing methods to increase their catch
- 2 small-scale development projects evaluated for economic viability
- 30 people trained across 2 countries in small business management skills
- 1 economically viable and sustainably managed sports-fish fishery established
- 1 economically viable fish waste utilisation business established
- 1 country has teacher resource materials on fisheries built into the school curricula
- 1 fisheries diversification project undertaken to test viability for commercialisation
- 2 countries have new or updated aquaculture development plans in place
- 2 reviews of national aquaculture legislation completed and submitted to government for finalisation
- 3 import risk analyses undertaken for exotic aquatic species
- Regional biosecurity strategy implemented
- 2 domestic small-scale aquaculture projects become viable

2015 Key Outputs - Project Funding

Australia: Climate Change Adaptation Initiatives in Kadavu, Fiji and Tokelau

- 6 communities are actively involved in implementing identified priority climate change adaptation activities covering both marine and land management practices
- Provincial government strengthened to be the conduit for information flow in both directions between communities and national government

- 3 atolls of Tokelau have invertebrate management plans in place and are implementing these plans
- Several climate change adaptations for income generation trialled in Tokelau for their suitability and acceptance

Australia: Fisheries for Food Security

- 2 aquarium fish management plans progressed and finalised
- 20 people from the private sector trained in appropriate catching and handling practices for aquarium fish
- 1 national workshop convened covering CITES non-detrimental finding requirements or covering local legislation requirements for the aquarium trade
- Software package developed for identification of aquarium fish species
- Best practice manual extracts converted to illustrated operator field guides
- 2 national aquaculture strategies have a mariculture component completed
- 40 people from the private sector trained in mariculture activities and/or new commodities
- 2 private enterprise take up a new mariculture commodity for farming
- Implementation plan developed under the biosecurity strategy for the Micronesian subregion
- 2 national aquaculture strategies have a freshwater/brackish water component completed
- 40 people from the private sector trained in freshwater/brackish activities and/or new commodities
- 20 fisheries or quarantine officers trained in WAHIS reporting requirements for OIE listed diseases
- 20 fisheries and quarantine officers trained in import risk analysis methodologies
- 2 public and/or private institutions take up a new fresh/brackish water commodity for farming
- 10 Competent Authority staff and exporters trained in meeting EU importing requirements
- 10 fisheries and industry staff trained in HACCP standards, and for sanitary inspection and documentation

Australia: Establishing community-based management programmes in Kiribati and Vanuatu (joint project with ANCORS and WorldFish)

- Produce a visioning report for Kiribati documenting the history and past approaches for CBRM used
- Develop the criteria for developing site selection and use this to identify 2 pilot sites in each country
- Assist CBRM pilot site communities in identifying issues, problems and solutions (CBRM participatory diagnostics) in both countries
- At least one CBRM management plan developed depending on approach and needs of community in each country
- Identify approaches to best initiate a national programme for sustainable CBRM in each country
- Seek relevant awareness material and translate into local language in each country

Australia: Improving community-based aquaculture in Fiji, Kiribati, Samoa and Vanuatu Fiji:

• Strengthen capacity of 2 national hatcheries through equipment supplies and staff training to improve production and supply of good quality freshwater tilapia fish fingerlings to tilapia aquaculture farmers

- Strengthen capacity of 1 lead farmer through on-farm training so the farmer is able to increase on-farm tilapia fingerling production to supply selected tilapia aquaculture farmers
- Undertake cost-benefit analysis of the types of aquaculture feeds used i.e. locally produced versus imported

Kiribati:

- Provide training to 5 nationals comprising 3 fisheries department staff and 2 personnel from private sector on all aspects of sea cucumber (sandfish) aquaculture from hatchery, nursery and grow-out phases
- Strengthen capacity of 1 existing national government hatchery through appropriate equipment supply to enable propagation of sea cucumber (sandfish) aquaculture.

Samoa:

- Strengthen capacity of 1 national government hatchery through equipment supply and staff training to improve supply of quality freshwater tilapia fish fingerling to meet farmers' demand
- Improve efficiency through intensification of hatchery techniques for freshwater tilapia aquaculture
- Undertake cost-benefit analysis of the types of aquaculture feeds used i.e. locally produced versus imported

Vanuatu:

- Strengthen 2 government freshwater hatcheries in Port Vila and Santo through equipment supplies and staff training to ensure sufficient tilapia fingerling produced to meet farmers' demand
- Develop minimum standards for viable freshwater tilapia and prawn pond aquaculture systems
- Undertake cost-benefit analysis of the types of aquaculture feeds used i.e. locally produced versus imported

New Zealand: Pacific Fisheries Training Programme

- 10 fisheries officers trained through the annual fisheries officer training course, Santo, Vanuatu
- 12 fishers trained in vessel operations and safety in 1 PICT
- 10 fisher entrepreneurs trained in small and medium scale business management in 1 PICT
- 50 fishers and fish processors trained in seafood safety and fish handling (primarily on tuna) in 1 PICT

New Zealand: Kiribati Sustainable Coastal Fisheries Programme

- Undertake planning/inception meetings in Kiribati in collaboration with MFAT staff from New Zealand
- Undertakes intensive commercial FAD fishing using 3 upgraded skiffs for an assessment of the effectiveness of FADs
- Commission two KIR 26 vessels to be built under the project
- Help setting up artisanal tuna fisheries monitoring (including FAD fishery) in Tarawa plus purchase FAD materials for ongoing project
- Establish catch monitoring design and implementation for deep-water snappers
- Commence the development of a deep-water snapper fishery management plan with industry/stakeholder consultations
- Review available information on priority species, including that held by regional agencies
- Identify key information needs, review current information systems and identify gaps with training in database use and data entry and analysis
- Commence review of the Fisheries Act 2010 for coastal fisheries.

European Union: SciCOFish coastal

- 4 attachments at SPC to analyse, interpret and write up results of assessments for management advice
- All outstanding country assessment reports with management recommendations finalised and distributed to respective countries
- Reports and papers produced for aging and genetic work on selected coastal finfish species undertaken by the project, with papers peer reviewed and published
- Coastal fisheries databases finalised and updated

European Union: DevFish 2 coastal

- 4 tuna fishing associations strengthened and providing input to the development of domestic operations
- 2 countries receive technical assistance with their national FAD programme
- 2 countries receive training and capacity building in safe small boat operations and safety at sea
- 1 country has teacher resource materials focusing on tuna fisheries built into the school curriculum

European Union: IACT aquaculture component

- 2 countries are producing aquaculture feeds from fish silage or fish meal produced locally from fish waste
- 3 countries have new or enhanced aquaculture projects implemented through technical assistance provided by the project
- 3 countries have active aquaculture associations that are assisting and uniting small-scale aquaculture operators in the country

Others (New Caledonia and French Pacific Fund)

• 10 fisheries officers trained in FAD fishing techniques and data collection, small boat sea safety and financial management

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Assist governments and administrations in the development of scientifically informed and socially achievable coastal fisheries

ii) Provide a regional framework for sustainable aquaculture, in the areas of planning, research, development and trade, for Pacific Island government, private enterprises and other stakeholders

iii) Develop sustainable nearshore fisheries in PICTs to provide food security, livelihoods, economic growth and climate change adaptation

This page intentionally left blank

Budget	Chapter 5
Office/division	Fisheries, Aquaculture and Marine Ecosystems
Programme/section	Oceanic Fisheries Programme

The goal of the Oceanic Fisheries Programme (OFP) is:

• Fisheries exploiting the region's resources of tuna, billfish and related species are managed for economic and ecological sustainability using the best available scientific information

Objectives

- Provide high-quality scientific information and advice for regional and national fisheries management authorities on the status of, and fishery impacts on, stocks targeted or otherwise impacted by regional oceanic fisheries
- Provide high-quality fishery monitoring services, analysis services and capacity development to support the management of oceanic fisheries by regional and national fisheries management authorities
- Provide high-quality data management services and capacity development to support the management of oceanic fisheries by regional and national fisheries management authorities
- Improve understanding of pelagic ecosystems in the western and central Pacific Ocean

2015 Key Outputs - Core Funding

- Efficient management of and reporting on the OFP work programme, in line with the FAME Strategic Plan
- Enhanced visibility of OFP work through communication in a variety of forms for scientific, fisheries management, policy and general audiences 3 peer-reviewed scientific papers, 1 tuna fisheries assessment report, 1 policy brief, contributions to 3 fisheries newsletters, 2 press releases and OFP website updated to enhance national web pages
- Advice on potential allocations of tuna fishery catch provided to 3 countries
- Regional tuna fisheries database maintained to provide high-quality information for tuna fisheries stock assessment and management for SPC, other agencies and members
- Tuna data processing services provided for 15 countries
- Enhanced national and regional observer programmes through support and coordination provided to observer training, debriefer training and observer trainer development

2015 Key Outputs - Project Funding

Australia: Fisheries for Food Security (Part 1)

Component 1 – Scientific advice for the development of oceanic fishery management measures

- Informed, science-based fisheries management decisions by FFA and its subregional bodies through the provision of scientific evaluations of alternative management options
- More efficient and effective implementation of the PNA (Parties to the Nauru Agreement) purseseine vessel days scheme and the longline vessel days scheme through the provision of highquality scientific analysis and data
- Presentations of non-technical versions of reports (e.g. stock status reports) to relevant regional forums

Australia: Fisheries for Food Security (Part 2)

Component 1 – Enhancing national tuna fishery monitoring and data management

- Reviews of national tuna fishery monitoring systems, national procedures documents and fishery monitoring funding requirements completed
- Monitoring of 3 national artisanal tuna fisheries continued
- 3 full national tuna monitoring audits completed
- The new TUFMAN web-based reporting system enhanced and used by member countries
- TUFMAN integrated into each new national information management system
- The new TUFMAN2 system, facilitating data flow and the automatic loading of various E-Reporting data, trialled in 3 countries
- FAD monitoring forms implemented and reporting enhanced in the TUF-ART artisanal tuna fisheries database
- The latest enhancements in the TUF-ART system implemented in countries collecting artisanal tuna fishery data

Component 3 – Improving the management of deepwater snapper resources

- Standardised data collection programs for deepwater snapper fisheries implemented in Tonga, Samoa and Vanuatu
- 3 Fisheries Officers from Tonga, Samoa and Vanuatu completed postgraduate degrees (MSc or PhD) including a project on deepwater snapper
- Characterisations of deepwater snapper fisheries, including recommendations for improving data collection and monitoring, provided to Tonga, Samoa and Vanuatu
- Reports predicting distributions of deepwater snapper habitat provided to Marshall Islands, Tonga, Samoa, Vanuatu, New Caledonia, Wallis and Futuna, Fiji, Palau, Papua New Guinea, and Solomon Islands
- Biological characteristics including growth rates and maturity schedules estimated for the major target species across the Pacific made available for stock assessments

European Union: SciCOFish oceanic (funding terminates 31 March 2015)

Improved national tuna fisheries monitoring, data management and fisheries management decisionmaking through:

- 1 national or subregional observer training course conducted, resulting in approximately 12–15 new certified observers from mainly PNA countries
- 1 observer trainer-trainee attachment conducted in conjunction with 1 national or subregional observer training course
- 1 tuna data audit conducted on national tuna data systems
- 1 set of national reports completed on a key issue (decided by members) and challenges in oceanic fisheries management, incorporating bioeconomic considerations where appropriate
- Bioeconomic analyses for the regional tuna fishery undertaken, including the south Pacific albacore fishery, and including analyses of fleet dynamics

European Union: DevFish 2

Improved detection and deterrence of illegal, unregulated or unreported (IUU) fishing through:

• Integrated vessel database system with web-based query tool incorporating data resources from WCPFC (Western and Central Pacific Fisheries Commission), Forum Fisheries Agency (FFA), SPC and members finalised to facilitate identification of IUU fishing

- Continued technical support (mainly in the areas of vessel monitoring system data and vessel identification) provided to regional maritime surveillance operations, including further investigation and integration on new data sources
- The latest version of TUFMAN-MCS systems released to member countries

New Zealand: Pacific Economic Growth Observer Programme (funding terminates 31 March 2015)

- Part B 'on the job' debriefer training in countries with suitable trainees
- Continued assistance provided to countries operating national observer databases (eTUBS)
- Trials conducted of the eTUBS system by observers to enter their data onboard vessels
- Assistance provided on request to WCPFC in the management of the WCPFC Regional Observer Programme database
- The new TUBS web-based reporting system is used by all member countries, WCFPC, and FFA to produce summaries of observer data prepared for WCPFC meetings, FFA and national observer coordinators on request

New Zealand: Economic Development, Tuna Science and Information, Pacific

- Improved national fishery information systems through 4 in-country training visits, online training and support, regional tuna data workshop and 2 short-term attachments
- OFP Helpdesk established to provide more timely and efficient support to member countries related to national database systems and data management
- Improved understanding of the population dynamics of bigeye tuna, through tagging data analysis to support a Pacific-wide bigeye assessment
- Stock assessment advice provided to members through training workshops, updated online national fishery characterisations for all members, and 4 national in-country stock status briefings

Western and Central Pacific Fisheries Commission: Scientific Services

Ensuring the best possible scientific support for WCPFC decision-making through:

- Regional stock assessments for South Pacific albacore and Pacific-wide bigeye tunas
- Indicator assessments of key shark species
- Development of a new Shark Research Plan for the region
- Improved stock assessment implementation through further implementation of the peer review recommendations for bigeye tuna (and other tropical tunas)
- Technical advice for the evaluation of target reference points provided
- Technical advice for the consideration of harvest control rules provided
- Technical advice on the potential for establishing e-reporting and e-monitoring in the WCPFC tuna fisheries
- Regional tuna fisheries databases augmented by new data submissions from all SPC members, as well as distant waters fishing nations and adjacent Southeast Asian countries
- Data from approximately 1,300 observer trips processed
- Annual catches of tuna fisheries estimated and published in the Tuna Fishery Yearbook

CHAPTER V - FISHERIES, AQUACULTURE 5 B8 MARINE ECOSYSTEMS DIVISION

2014	Revised 2014R	OCEANIC FISHERIES	2015	2016	2017
		BUDGET			
1,045,400	1,045,400	Core	1,197,100	1,197,800	1,197,800

19,100	91,600	Other	99,100	71,100	
4,508,500	6,302,500	Subtotal Project	4,888,500	774,800	
5,553,900	7,631,700	TOTAL BUDGET	7,284,200	3,148,800	2,072,600

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Provide high-quality scientific information and advice for regional and national fisheries management authorities on the status of, and fishery impacts on, stocks targeted or otherwise impacted by regional oceanic fisheries

ii) Provide high-quality fishery monitoring services, analysis services and capacity development to support the management of oceanic fisheries by regional and national fisheries management authorities

iii) Provide high-quality data management services and capacity development to support the management of oceanic fisheries by regional and national fisheries management authorities

iv) Improve understanding of pelagic ecosystems in the western and central Pacific Ocean

Goal

The goal of the division is for the Pacific Community to have improved food, nutritional and income security and manage land, agriculture and forestry resources in a sustainable manner.

Objectives

The objectives under the divisional strategic plan for the period 2013–2017 are to:

- Support informed policy decisions, advocacy and knowledge sharing on sustainable land, agriculture and forestry management and development
- Strengthen food and nutrition security and its resilience to impacts of disasters and climate change
- Enhance sustainable land, agriculture and forestry resources management
- Increase contributions from agriculture and forestry to economic growth

The new divisional structure provides for four programmes:

- Director's Office / Strategic Engagement and Policy Development
- Trade and Agribusiness
- Sustainable Resource Management
- Food and Nutritional Security

2015 Key Outputs - Core and Project Funding

Director's Office / Strategic Engagement and Policy Development

- Strengthened capacity by the division to make evidence-based policy decisions on food security, sustainable resource management and economic growth
- Enhanced awareness and understanding by the division of climate change and other key agriculture and forestry issues
- Effective monitoring and reporting of LRD strategic results
- Strengthened collaboration and partnerships with other national, regional and international organisations

Trade and Agribusiness Programme

- Increased capacity of PICTs to meet trade regulations and increased export and domestic trade
- Strengthened viable agribusinesses that have development impact
- Enhanced smallholder (including women and youth) participation in local, domestic and international markets

Sustainable Resource Management Programme

- Increased capacity for sustainable land management and sustainable forest management
- Developed and strengthened national and regional capacity to mitigate and adapt to climate change and to respond to land, agriculture and forest resources

Food and Nutritional Security Programme

- Increased availability and better access to traditional and improved tree and animal diversity
- Increased production and consumption of local nutritious foods

2015 Key Outputs: Major Projects

ACIAR-funded: Strengthening Integrated Crop Management Research in the Pacific

• Crop production supported through training local advisors, information dissemination (online resources, fact sheets), and introduction of high-tech pocket digital microscopes for data collection

European Union: Improvement of Key Services to Agriculture in the Sugar Sector in Fiji

- Seed and seedling production capacities for horticulture/food crops are enhanced through identification of high-performing planting materials, improved capacity of tissue culture laboratories, and the establishment of community seedling gardens
- Horticulture supply systems improved through training and technical advice
- Public-private linkages and market standards supported in Fiji through on-site demonstration and training on food processing and grading mechanisms
- Food supply chain strengthened through provision of extension services and increased networking/relationship building
- Farmer groups for small enterprise developed and supported through the establishment of an extension network, the use of ICT (mobile phones) for information exchange, and training in financial management, farm management and production
- Fairtrade association replicated and strengthened to allow multiple groups to access fairtrade certification and ensure ongoing compliance to the fair-trade standards

Australia: Pacific Horticultural and Agricultural Market Access Programme (PHAMA)

- Improved market access knowledge of national-level stakeholders through the development of pest risk analysis, promotion of the systems approach to export pathways, and maintenance of relevant information databases
- Improved information exchange through updates to the International Plant Protection (IPP) portal on the IPP Convention webpage, Biosecurity Helpdesk, Biosecurity Image Library, and ongoing support and training on the Biosecurity Information Facility
- Micronesia Biosecurity Plan reviewed
- Study of hot water treatment of commodities completed
- Key quarantine pest surveillance provided

European Union: Increasing Agricultural Commodity Trade in the Pacific (IACT)

- Trade promoted through technical assistance to at least 28 businesses, in at least 5 Pacific members of the African, Caribbean and Pacific Group of States (ACP) (likely Fiji, Samoa, Tonga, PNG and Solomon Islands) through identification of new production areas and new value-added products
- Economies of scale for aquaculture farmer networks achieved in at least 2 demonstration sites (one in Fiji and one in PNG)
- Assistance provided to at least 3 producers to obtain fair trade/organic certification
- Crop-/commodity-specific pest and disease surveys completed for at least 2 export products (taro and ginger)

2014	Revised 2014	DIRECTOR'S OFFICE	2015	2016	2017
		BUDGET			
355,800	373,000	Core	394,600	372,600	481,300
	23,400	Programme Funding - Designated New Zealand

The above budget is to fund work aimed at achieving the following key goals and objectives in the division's strategic plan:

Goal

The goal of the division is for the Pacific Community to have improved food, nutritional and income security and manage land, agriculture and forestry resources in a sustainable manner.

Objective

i) Strengthen food and nutrition security and its resilience to impacts of disasters and climate change

As per PHD's Strategic Plan 2013–2022 Healthy Islands – Healthy People, the Public Health Division's objectives are as follows.

Objectives

To provide scientific and technical support to PICTs for them to protect and promote population health in their countries. This support is provided in a number of ways depending on the needs of different PICTs. Based on the needs of the PICTs and PHD capability, the focus of the strategy is on two main areas:

- 1. Build national capacity to deliver core public health functions (and/or supplement or substitute capacity in small island developing states)
- 2. Provide selected regional public goods in health; underpinning and supporting these areas are the key functions of monitoring, evaluation and learning

The Public Health Division consists of the Office of the Director; its two programmes – the Research, Evidence and Information Programme and the Policy, Planning and Regulation Programme; and the Grants Management Unit.

The following priority areas have been identified as the focus of our work:

- 1. Non-communicable disease (NCD) prevention and control, including the major risk factors
- 2. Communicable disease surveillance and response
- 3. Sexually transmitted infection (STI) prevention and control, including HIV/AIDS

Director's Office

The Director's Office provides oversight, monitoring and support for all three units. The Director's Office is funded through a combination of core and project funding.

2015 Key Outputs - Core and Project Funding

- PHD strategic plan 2013–2022 operationalised with monitoring and evaluation framework
- Administrative, human resources, financial and logistical support provided to the division
- Streamlined budgetary processes implemented with appropriate consultations and reporting
- Successful Heads of Health Meeting held to strengthen regional health architecture
- Strengthened capacity in terms of human and financial resources in role of secretariat to Heads of Health and ministerial fora
- Three PICTs receive technical assistance to conduct mapping, research and implementation of strategies and policies to address the social determinants of health
- Progressive introduction of health in all policies and health impact assessment as tools for measuring health equity, or as part of wider integrated impact assessments in three PICTs
- Professional development for SPC staff and public health practitioners in the region provided
- At least one meeting of the Public Health Scientific and Technical Expert Group (STEG) organised

Research, Evidence and Information Programme (REIP)

2015 Key Outputs - Core and Project Funding

- LabNet regional activities coordinated and facilitated by the Laboratory Technical Working Body
- Pacific Public Health Surveillance Network (PPHSN) activities and governance coordinated and facilitated through its Coordinating Body

- National EpiNet teams strengthened by clear political and institutional commitment
- In partnership with other agencies, Pacific regional syndromic surveillance system improved
- Ongoing assessments of the national and regional needs for operational research on PPHSN priority target diseases and other public health matters
- Field Epidemiology Training Programme (FETP) curriculum planned, developed and funded
- Mapping and improvement projects implemented for national surveillance systems; evaluation started
- Mass-gathering surveillance modules finalised and evaluated for long-term enhancement of surveillance systems; mass-gathering surveillance rolled out (2 PICTs)
- Trialling the process with the second Pacific Operational Research (OR) course; 6 OR papers published
- Data for Decision-Making (DDM) 1 delivered to the remaining 6 PICTs; DDM 2 to 10 PICTs; DDM 3 to 11 PICTs; DDM 4 to 11 PICTs; 6 PICTs passed all 4 modules and some first EpiTechs qualified by Fiji National University
- Health information systems person to start reviews of national (3 PICTs) and regional database
- Preparedness response plans updated for 5 PICTs
- EpiNet training given to all PICTs at national level and some at community level; national improvement projects started
- Strengthening of in-country programme to address communicable diseases including tuberculosis

Policy, Planning and Regulation Programme (PPRP)

- Well-functioning NCDs/Food Security Working Group within SPC and assisting at least two PICTs with a multi-sectoral NCDs programmatic approach
- Strengthened Pacific NCD Partnership with matrix and better role delineation and clarity between partners
- Reporting of progress and successes of NCD Roadmap to Forum Economic Ministers Meeting as well as Pacific Health Ministers Meeting
- Strengthened strategic political relationship with Forum Ministers to secure additional support for addressing the key drivers of NCDs in the sectors of finance, trade and planning
- Updating of NCD plans in at least four PICTs
- Introduction or strengthening of sugar sweetened beverage tax in at least four PICTs
- Regional consultation meeting to set regional priorities for reduction in alcohol-related harms
- Assistance provided for development of complementary alcohol legislation, regulation and policy
- 10 PICTs to have developed and be implementing fully costed national strategic plans for responding to HIV/STIs including sexual and reproductive health
- Pacific Sexual Health and Wellbeing Shared Agenda widely understood, with resultant closer working relationship between partners and countries with better division of labour and role delineation
- 13 PICTs to be implementing the recommended comprehensive STI control and prevention strategy for the Pacific
- Roll out of Strategic Health Communication Toolkit with partners in at least three PICTs

2014	Revised 2014	DIRECTOR'S OFFICE	2015	2016	2017
		BUDGET			
506,000	265,200	Core	458,100	474,500	489,400
282,100	243,400 22,000	Project Australia New Zealand Other	86,600		
282,100	265,400	Subtotal project	86,600		
788,100	530,600	TOTAL BUDGET	544,700	474,500	489,400

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

1) To provide scientific and technical support to PICTs for them to protect and promote population health in their countries. This support is provided in a number of ways depending on the needs of different PICTs. Based on the needs of the PICTs and PHD capability, the focus of the strategy is on two main areas:

i) Build national capacity to deliver core public health functions (and/or supplement or substitute capacity in small island developing states)

ii) Provide selected regional public goods in health; underpinning and supporting these areas are the key functions of monitoring, evaluation and learning

ii. Provide selected regional public goods in health; underpinning and supporting these areas are the key functions of monitoring, evaluation and learning

BudgetChapter 8Office/divisionStatistics for Development DivisionProgramme/sectionStatistics for Development Division

The division has four key functional areas to attend to during the second Phase, 2015–2017, of the Ten Year Pacific Statistics Strategy 2011–2020 (TYPSS):

- Statistical collection and compilation (focus: censuses and household surveys, and from 2015 onwards a strategic priority focus on strengthening administrative databases, in particular those related to civil registration and vital statistics; this period will also see the setting up of a regional EMIS [education management information system] technical support facility);
- Data analysis and knowledge production (demographic, economic and social);
- Data dissemination (National Minimum Development Indicator [NMDI] database, Pacific Regional Information System [PRISM], PopGIS; step-up activities in bringing development indicators/policy-relevant statistics more directly to users, through regular policy briefs/dialogues; data user seminars, technical reports; statistical factsheets/pocket summaries and posters); and
- Strategic statistical planning (assist countries in developing long-term strategies for statistics national strategies for the development of statistics [NSDSs]).

Statistical capacity building and training continues to represent an integral component across all three areas.

The goal of the division is to strengthen the capacity of national statistical systems (NSSs) and social and economic planning agencies to ensure the region's policy-makers and analysts, and other regional international stakeholders, have access to a wide range of development statistics and key indicators to support evidence-based decision-making, to monitor development progress, and to measure results. To assist this process, priority attention during 2015–2017 will be accorded to our continued technical collaboration with Paris21, to ensure all PICs have an NSDS in place.

The SDD Strategic Plan 2015–2017, as has been the case with the current Pacific Statistics Strategic Action Plan (2011–2014), will be closely aligned with the TYPSS Phase-2 (2015–2017) design, which is meant to guide the work of all technical and financial partners committed to implementation of the Ten Year Pacific Statistics Strategy. While the Phase-2 design document will be subject to a final review and endorsement by the Pacific Statistics Steering Committee at its next meeting (21–22 October), the SDD 2015–2017 strategic plan will address the following five core objectives.

Objectives

- 1. PICTs are undertaking key statistical collections as scheduled with timely analysis and dissemination of results to national and regional users
- 2. PICTs are producing the agreed core set of statistics across key sectors as required by national development plans and agreed-upon regional reporting frameworks (NMDI), with timely analysis and dissemination of results to national users
- 3. Each PICT has in place a national statistics strategy or plan that is in line with its national development strategy
- 4. The NSS in each PICT has access to information on an ongoing basis about emerging statistical standards and classifications, tools and systems, and processes for effective data analysis, communication and quality assurance
- 5. National and regional statistics governance is functioning effectively

2015 Key Outputs - Core Funding

- Planning and project management for all **statistical collections** (census and household survey activities: assist Kiribati and Palau with implementation of their 2015 censuses, and assist other countries in the preparation for their 2016 census activities: Niue, Tonga, Samoa, Cook Islands; complete demographic and health survey [DHS] analytical report for Solomon Islands, followed by a data user seminar for senior planners and policy-makers; assist up to three new countries with household income and expenditure survey [HIES] planning and implementation (75% of HIES and DHS technical activities are covered by SDD-tagged core funding in support of TYPSS Phase-2)
- Organise **regional technical workshop** on developing a common core Pacific Population and Housing census schedule for the 2020 World Round of Censuses, that all countries commit to use (as is already the practice with DHS and HIES), to provide regionally comparable population statistics and indicators, and technical assistance efficiency gains and cost-savings (common training manuals, data processing systems, tabulation plans, reporting templates)
- **Technical/training support to census/survey operations**: sampling, advice on census/survey cartography, data capture/processing, training of field staff, demographic/economic analysis and report writing (75% covered by SDD-tagged core funding in support of TYPSS Phase-2)
- Tangible expansion of **NMDI thematic coverage**, with inclusion of new SDG-related indicators
- Consolidation of technical support with **trade statistics** in PNG, Kiribati, Tuvalu and Nauru, and initiating such technical collaboration with FSM, Marshall Islands and Northern Mariana Islands; continuation of development of **business registers** in PNG and Vanuatu, and expand technical assistance coverage to Solomon Islands and Tonga
- Rebase **consumer price indices** (CPIs) for Nauru, FSM, Palau and Solomon Islands after recent completion of their HIES; complete CPI compilation guide in partnership with ABS
- **Dissemination of statistical information:** complementary mix of electronic/web-based dissemination (NMDI/PRISM), spatial and graphic visualisation (PopGIS), analytical reports and shorter fact-sheets, and following every major statistical collection, undertake a data-user dialogue in country, presenting the findings of a particular census and survey; produce annual mid-year population estimates
- Ongoing NMDI, PRISM, and PopGIS system maintenance and technical support to countries
- Collaborate with Paris21 in developing NSDS design for Fiji and two other PICs

2015 Key Outputs – 'Project Funding' (SDD tagged support to core, Australia, 2015–2017)

Census/surveys technical support and capacity building

- Support **DHS** planning and implementation in Fiji and Solomon Islands; assist Tonga, Tuvalu, Cook Islands and Tokelau with **HIES** planning and implementation (25% covered core budget)
- Complete DHS analytical report and factsheets for Fiji and Solomon Islands, and a set of HIES fact sheets for FSM, Nauru, Solomon Islands and Palau
- Update NMDI and associated MDG database with newly derived DHS and HIES based indicators

Improving sectoral statistics

- Continued support to countries' compilation of **international merchandise trade** and **international service trade statistics,** including provision of Noumea-based training attachments for Nauru and Vanuatu; completion of International Merchandise Trade Statistics (IMTS) compilation guide
- A new phase of the Pacific Vital Statistics Action Plan (2015–2017) will be rolled out for 2015 to assist countries to complete or update national improvement strategies for **civil registration and vital statistics**, and to support the implementation of these national plans. SPC will continue to

provide coordination and secretariat support to the Brisbane Accord Group of partners moving forward with this plan. Specific activities will include country technical support, in the form of national planning workshops for PNG, Samoa, Marshall Islands and FSM; the trial and subsequent roll out of verbal autopsies in Vanuatu; a subregional data analysis and report writing course for the north Pacific countries, and ongoing remote technical analysis and planning assistance.

• New Australian project funding beginning in 2015, to provide country technical support in **education statistics and associated management information systems**, through the establishment of a regional EMIS technical support facility; focus will be on in-country technical support and training to improve: (i) regular collection and quality of education statistics, (ii) monitoring/evaluation of education indicators, and (iii) national education management information systems; initial focus on Kiribati, Marshall Islands, Tonga, Vanuatu, with coverage extended to other countries following finalisation of funding modality

Professional statistical development (subregional/national training workshops); dedicated subregional technical training for:

- PICT national statistical agencies webmasters to ensure their web publishing skills and website developments remain up to date
- Nine census commissioners of countries undertaking a census in 2015 and 2016
- National accounts compilers and trade statisticians
- Civil registration/vital statistics officers
- Education statisticians and EMIS technical staff

Statistical development/governance

- Collaborate with Paris21 in completing NSDS design for Fiji and 2 other countries yet to be determined
- Provide ongoing technical support to Pacific Statistics Steering Committee

The above budget is to fund work aimed at achieving the following key objectives in the aivision's •trategic] lan:

i) PICTs are undertaking key statistical collections as scheduled with timely analysis and dissemination of results to national and regional users

ii) PICTs are producing the agreed core set of statistics across key sectors as required by national development plans and agreedupon regional reporting frameworks (NMÖI), with timely analysis and dissemination of results to national users

iii) PICTS have in place a national statistics strategy or plan that is in line with their national development strategies

iv) The NSS in each PICT has access to information on an ongoing basis about emerging statistical standards and classifications, tools and systems, and processes for effective data analysis, communication and quality assurance

v) National and regional statistics governance is functioning effectively

BudgetChapter 9Office/divisionOperations and Management DirectorateProgramme/sectionNorth Pacific Regional Office

The goal of the Secretariat of the Pacific Community's North Pacific Regional Office (NPRO) in Pohnpei is the effective and efficient delivery of SPC services to members in the north Pacific. In addition to a Director and small management team, the office hosts staff from almost all of SPC's seven divisions, and supports field staff in other North Pacific countries and visiting staff from other SPC locations. The office plays a key role in facilitating the implementation of the joint country strategies (JCSs) of the countries in the north Pacific region. The JCS process is currently being refined to ensure they are efficient, useful and relevant, and that they align closely with national development priorities of members.

Objectives

- To effectively represent SPC and provide a focal point of communication and dialogue with members in the north Pacific region
- Maintain and strengthen the excellent and effective relations with the host governments of Federated States of Micronesia (FSM) and Pohnpei State, with other north Pacific SPC members, and with Pohnpei-based missions of SPC members, regional agencies and development partners
- Coordinate and support delivery of SPC's technical and scientific programmes and services to north Pacific members in support of member priorities
- Manage the NPRO in accordance with SPC corporate policies and procedures, mission and vision, and promote awareness of SPC's work in the north Pacific
- Contribute to maintaining effective liaison between all SPC offices, and with members in the north Pacific

2015 Key Outputs - Core Funding

- At least 90% of the NPRO work plan is achieved
- Regular consultations with the FSM Government and with other north Pacific countries and territories are maintained or enhanced, including the Micronesian Chief Executives and Micronesian Presidents
- Annual and quarterly visits are made to all north Pacific SPC members for policy and/or programme consultations
- Focal point for activities implemented by non-Pohnpei based SPC programmes in the north Pacific
- Review the development of the refined joint country strategies for north Pacific SPC members
- Implement and monitor the refined JCS for countries and territories covered by NPRO
- Work in partnership with members in the north Pacific to identify additional resources to permit SPC assistance with priorities of members in the north Pacific

CHAPTER IX - OPERATIONS AND MANAGEMENT 8 + 97 HCF5 H9

2014	Revised 2014	NORTH PACIFIC REGIONAL OFFICE	2015	2016	2017
		BUDGET			
544,100	581,100	Core	596,800	596,800	596,800
		Project			
		Subtotal project			
544,100	581,100	TOTAL BUDGET	596,800	596,800	596,800

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) To effectively represent SPC and provide a focal point of communication and dialogue with members in the north Pacific region

ii) Maintain and strengthen the excellent and effective relations with the host governments of Federated States of Micronesia (FSM and Pohnpei State, other north Pacific SPC members and with Pohnpe based missions of SPC members, regional agencies and development partners

iii) Coordinate and support delivery of SPC's technical and scientific programmes and services to north Pacific members in support of member priorities

iv) Manage NPRO in accordance with SPC corporate policies and procedures, mission and vision, and promote awareness of SPC's work in the north Pacific

v) Contribute to maintaining effective liaison between all SPC offices, and with members in the north Pacific

BudgetChapter 9Office/divisionOperations and Management DirectorateProgramme/sectionSolomon Islands Country Office

The goal of SPC's Solomon Islands Country Office is to assist in the effective and efficient delivery of SPC services at the country level for one of SPC's largest member states. The office has a key role in facilitating the implementation of the Solomon Islands Government–SPC Agreement 2013–2014 while preparing the new joint country strategy for 2015–2017. The country office supports SPC staff stationed in Solomon Islands under OMD, LRD, ETHD, and PHD, and supports over 30 locally recruited staff (capacity supplementation) embedded in line ministries as requested by the government. The office also supports technical staff on duty travel from other SPC offices representing all SPC divisions.

Objectives

- Maintain excellent relations with the Solomon Islands Government and Honiara-based missions of SPC members and other development partners
- Coordinate and enhance delivery of SPC technical services to Solomon Islands
- Manage the country office in accordance with SPC corporate policies and procedures
- Act as effective liaison between all SPC offices and divisions for work conducted at country level

2015 Key Outputs - Core Funding

- The Solomon Islands Country Office will continue to coordinate SPC services at country level, placing emphasis on multi-sector approaches in line with the 2013–2015 Corporate Strategic Plan commitment
- Monthly meetings will continue to be held with government ministries to review JCS progress and to discuss emerging issues with government ministries for better coordination and cooperation
- Monthly coordination meetings will continue to be held with development partners active in country
- Logistical support will be provided to SPC divisions for optimal service provision at country level

2015 Key Outputs - Project Funding

Australian Aid and 4 Partner Government Ministries: YOUTH@WORK

• The highly successful Youth@Work programme has trained and employed 1600 youth since its inception in 2012. For 2015, an additional 500 youth in Honiara, 100 in Choiseul province and 200 in Malaita province will gain employment and skills under this programme. The YOUTH MARKET aspect of the programme will open economic opportunity through monthly markets to a further 2000 youth. This programme is funded by Australian bilateral assistance in Solomon Islands and implemented by SPC in partnership with the Ministry of Commerce, Labour and Immigration; the Ministry of National Reconciliation, Unity and Peace; the Ministry of Women, Youth, Children and Family Affairs; and the Ministry of Culture and Tourism as well as the Australian Government's Pacific Leadership Programme.

Australian Aid and the Ministry of Lands, Housing and Survey

- Providing extensive technical assistance to the Ministry of Lands to implement government policy by:
 - Revising Honiara Local Planning Scheme
 - Formalising land tenure in squatter settlements
 - Organisational review and capacity building in the ministry
 - o Review of land-related legislation

Projects listed are funded through grants raised directly by the office. Other anticipated project results are reported under the respective divisional budget chapters.

CHAPTER IX - OPERATIONS AND MANAGEMENT 8 + 97 HCF5 H9

2014	Revised 2014	SOLOMON ISLANDS COUNTRY OFFICE	2015	2016	2017
		BUDGET			
241,800	244,800	Core	245,100	245,100	245,100
		Project			
	863,200	Australia	262,500		
	863,200	Subtotal projects	262,500		
241,800	1,108,000	TOTAL BUDGET	507,600	245,100	245,100

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Maintain excellent relations with the Solomon Islands Government and Honiara-based missions of SPC members and other development partners

ii) Coordinate and enhance delivery of SPC technical services to Solomon Islands

iii) Manage the country office in accordance with SPC corporate policies and procedures

iv) Act as effective liaison between all SPC offices and divisions for work conducted at country level

SPC's Administration Section includes General Administration, Procurement, Travel, Records Management, Maintenance and Housing units. Administration staff are located at SPC's Noumea headquarters and its Suva Regional Office and provide administrative services and assist in development and implementation of corporate administrative policies and procedures at all SPC offices.

Objectives

- The Administration Section aims to ensure continuous delivery of efficient and effective administrative services to its clients and stakeholders
- It provides SPC with necessary operational support and serves SPC's best interest through 'best value for money' approaches and continuous delivery of high-quality administrative services to meet the organisation's objectives

2015 Key Outputs - Core Funding

- Full implementation of e-procurement and e-bid processes and system
- Implementation of Records Management Policy and operationalisation of Records Office and Archives at Suva Regional Office
- Training and briefing on corporate administrative policies for divisions, ensuring effective compliance
- Ongoing process improvements relating to administrative service delivery and effective implementation of cost recovery processes

2015 Key Outputs - Project funding

- Temporary relocation of SPC Nabua Campus to allow construction work for Pacific Village
- Implementation of Pacific Village in Suva in collaboration Fiji Government officials
- Refurbishments of SPC Noumea offices

CHAPTER IX - OPERATIONS AND MANAGEMENT'8 + 97 HCF5 H9

2014	Revised 2014	ADMINISTRATION	2015	2016	2017
		BUDGET			
1,541,800	1,396,200	Core	1,445,400	1,446,900	1,446,900
23,000	13,900	Project Other	15,400	15,400	15,400

1,564,800	1,410,100	TOTAL BUDGET	1,460,800	1,462,300	1,462,300

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) The Administration Section aims to ensure continuous delivery of efficient and effective administrative services to its clients and stakeholders

ii) It provides SPC with necessary operational support and serves SPC's best interest though best value for money approaches and continuous delivery of quality administrative services to meet the organisation's objectives

Budget	Chapter 9
Office/division	Operations and Management Directorate
Programme/section	Finance Section

Finance

The Finance Section supports the work of divisions and sections through the provision of financial information and support. This includes all receipts and payments, payroll, financial reporting, corporate budgets, ensuring statutory audits, and providing harmonised, high-quality financial advice and systems across all of SPC's locations.

Objectives

- Support OMD to become an example of best practice within SPC as a whole and against the highest international standards
- Be a team of elite finance professionals that provides high-quality services to SPC
- Use the best financial management information systems and processes and strive for continuous improvement (improve effectiveness and efficiency)
- Contribute to SPC's work on financial sustainability

2015 Key Outputs - Core funding

- Review of financial policies and procedures completed and all staff trained
- Financial statements prepared in accordance with the International Public Sector Accounting Standards (IPSAS) for the first time
- Improved budget framework and format linking budgets to key divisional/outcome areas
- Return on financial investments such as interest income maximised
- Finances managed prudently with management and stakeholders provided with informative and timely financial reports
- Financial services, systems and high-quality advice provided according to service standards across all SPC locations

2015 Key Outputs - Project funding

- Financial system upgraded to web-based system (NAV 2013), resulting in improvements in accuracy, timeliness and integration of financial reporting to stakeholders and reduced manual processes
- Additional NAV 2013 system functionalities implemented, leading to further increases in productivity

CHAPTER IX - OPERATIONS AND MANAGEMENT 8 + 97 HCF5 H9

2014	Revised 2014	FINANCE	2015	2016	2017
		BUDGET

1,385,400	1,490,100	TOTAL BUDGET	1,348,300	1,220,500	1,216,400

The above budget is to fund work aimed at achieving the following key objectives in the division's strategic plan:

i) Support OMD to become an example of best practice within SPC as a whole and against the highest international standards

ii) Be a team of elite finance professionals that provide high-quality services to SPC

iii) Use the best financial management information systems and processes and strive for continuous improvement (improve effectiveness and efficiency)

iv) Contribute to SPC's work on financial sustainability

Budget	Chapter 9
Office/division	Operations and Management Directorate
Programme/section	Human Resource Section

Objectives

- Provide international best practice human resource (HR) services across all SPC sites
- Ensure timely and effective recruitment and selection processes
- Support SPC's organisational units in handling change through people management
- Ensure simple and effective HR administration through the HR Online information system

2015 Key Outputs - Core and Project Funding

- New recruitment policy and process implemented
- Functionality of HR information system (HR Online): stabilisation, data accuracy, intensive training of all employees, managers and HR users
- Employee health insurance coverage harmonised for all SPC sites
- New Provident Fund scheme for Noumea staff: better ROI for PAL and PAI, better retirement orientation for PAL
- Set of HR policies drafted in 2012–2013 and updated in 2014 finalised and approved, including changes in the duration of contracts (possibility of permanent contracts for PAL, greater flexibility around length of tenure with SPC for PAI)
- HR intranet site: functionality and access improved user friendly (access to documents such as HR policies, guidelines and induction programmes)

CHAPTER IX - OPERATIONS AND MANAGEMENT'8 +97 HCF5 H9

The above budget is to fund work aimed at achieving the following key objectives in the aivision's • trategic] lan:

i) Provide international best practice HR services across all SPC sites

- ii) Ensure timely and effective recruitment and selection processes
- iii) Support SPC's organisational units 3 A@ ala* change c@[**@people management
- iv) Ensure simple and effective HR administration through the HR On|ine information system

BudgetChapter 9Office/divisionOperations and Management DirectorateProgramme/sectionInformation and Communications Technology Section

Objectives

- Ensure efficient digital services for SPC by providing sustained, high-quality ICT services in support of SPC divisions and programmes
- Ensure effective digital services for our clients by ensuring that SPC's ICT services meet the needs of a modern and increasingly decentralised organisation
- Ensure the security and integrity of SPC systems and processes
- Develop and maintain collaborative relationships with clients and stakeholders both inside and outside of SPC

2015 Key Outputs – Core and Project Funding

- Continued improvements to onsite and offsite backup systems in Noumea and Suva and other SPC sites
- Continued improvements to Internet connectivity in Noumea, Pohnpei, Suva and other SPC sites
- More core ICT services moved to the cloud over the next 12 months
- Continued improvements to corporate ICT infrastructure, systems and security
- Increased staff satisfaction with Helpdesk and support services
- Continued contribution to organisational staff development through ICT training

1,554,700	1,554,700	TOTAL BUDGET	1,582,500	1,584,600	1,584,600

The above budget is to fund work aimed at achieving the following key objectives in the aivision's • trategic] lan:

i) E) • : |^ Afficient digital services for SPC by providing sustained, high-quality ICT services in support of SPC aivisions and programmes

ii) E}• * I^Affective digital services for our clients by ensuring that SPC's ICT services meet the needs of a modern and increasingly decentralised organi•ation

iii) Ensure the security and integrity of SPC systems and processes

iv) Develop and maintain collaborative relationships with clients and stakeholders both inside and outside of SPC

Budget	Chapter 9
Office/division	Operations and Management Directorate
Programme/section	Library

Objectives

- Ensure efficient library services to both Suva and Noumea, enabling staff access to documents that meet their research and informational needs to perform their tasks within SPC and the PICTs
- Provide the most up to date digital and print information to strengthen collection development in SPC research and work areas
- Strengthen regional, national, and special library information networks throughout the PICTs

2015 Key Outputs - Core Funding

- Library collections kept current and maintained, including SPC publications
- Increased staff satisfaction with the library services and library helpdesk
- Collection and management of SPC electronic documents for the SPC digital library
- Increased availability of online electronic journals for staff use
- Preservation and conservation of SPC publications
- Provision of advice and information to regional, national and special library information networks throughout PICTs

i) E) • * !^ Afficient library services to both Suva and Noumea, enabling staff access to documents that meet their research and informational needs to perform their tasks within SPC and the PICTs

ii) Provide the most up to date digital and print information to strengthen collection development in SPC research and work areas

iii) Strengthen regional, national, and special library information networks throughout the PICTs

Budget	Chapter 9
Office/division	Operations and Management Directorate
Programme/section	Publications Section

Objectives

- Publish and disseminate corporate, scientific and technical information in formats that meet the needs of SPC's members and sector audiences
- Contribute to strengthening SPC's outreach and communication
- Support SPC's knowledge management systems as part of maintaining organisational effectiveness

2015 Key Outputs - Core Funding

- Corporate and technical documents produced in accordance with member and programme requirements and SPC policies and schedules
- SPC publications disseminated to a wider audience and distribution partnerships maintained
- Support provided for a unified corporate identity and more effective communication, including improved liaison with media networks
- SPC catalogue updated in collaboration with Library
- SPC-wide digital library established in collaboration with Library, ICT Section and programmes
- Redevelopment of SPC website supported and relevant content managed
- Document production (print and digital) managed efficiently and cost effectively, with new technology implemented as appropriate
- Publications helpdesk database reflects at least 95% client satisfaction

i) Publish and disseminate corporate, scientific and technical information in formats that meet the needs of SPC's members and sector audiences

ii) Contribute to strengthening SPC's outreach and communication

iii) Support SPC's knowledge management systems as part of maintaining organisational effectiveness

Budget	Chapter 9
Office/division	Operations and Management Directorate
Programme/section	Translation and Interpretation Section

Objective

• Provide services from both Suva and Noumea enabling SPC to operate in English and French, the organisation's two working languages.

2015 Key Outputs - Core Funding

- High-quality translations into French and English produced as close to client deadlines as possible
- High-quality interpretation services provided at SPC events
- Interpretation/translation services provided on a full cost recovery basis in certain circumstances
- Translation/interpretation capacity maintained and strengthened by keeping hardware and software up to date, acquiring relevant new tools, keeping job descriptions under review, playing an active part in corporate improvement processes, remaining in touch with professional and institutional networks and offering personal and professional development opportunities
- SPC conference and videoconference systems upgraded and adapted to meet changing needs, especially for remote conferencing
- Novel equipment and airfreight solutions found to reduce cargo costs

i) Provide services from both Suva and Noumea enabling SPC to operate in English and French, the organisation's two working languages.

Budget	Chapter 9
Office/division	Operations and Management Directorate
Programme/section	Pacific Islands Regional Multi-Country Coordinating Mechanism (PIRMCCM)
	Secretariat

The Pacific Islands Regional Multi-Country Coordinating Mechanism (PIRMCCM) Secretariat services the regional coordinating mechanism (PIRMCCM) with respect to its governance, oversight and coordination role. The PIRMCCM Secretariat has four key result areas:

- Strengthened PIRMCCM oversight of the regional grants
- Strengthened knowledge and capacity in PIRMCCM to assess the quality of grant implementation
- PIRMCCM has increased engagement of national and regional constituencies in their role of overseeing programmes receiving funds through the regional grants
- PIRMCCM engages with existing funding mechanisms to align GF (Global Fund to Fight AIDS, Tuberculosis and Malaria) grants to newly developed initiatives in the region

2015 Key Outputs - Project Funding

The PIRMCCM Secretariat is funded by GF with counterpart financing through contributions by national government to their respective country coordinating mechanisms.

- Coordination, development and submission of three concept notes: HIV concept note, tuberculosis concept note and malaria reprogramming request on behalf of 11 PICTsⁱ
- Coordination of the selection of Principal Recipient for the Multi-Country Western Pacific Grant
- Facilitation of the Annual PIRMCCM Meeting and governance training for members
- Coordination of the implementation of the final Pacific Response Fund Committee Meeting; a 5-year project that was implemented in 14 PICTsⁱⁱ
- Coordination of the regional HIV concept note consultation process
- Coordination of the Regional TB Gap Analysis Meeting jointly coordinated with SPC PHD and WHO
- Implementation of the PIRMCCM Governance Reform process
- Extending the PIRMCCM constituencies to include key populations and civil society organisations
- Facilitation of Grant Oversight activities in PICTs (Solomon Islands onsite), (Vanuatu offsite)
- Improved knowledge sharing and capacity building with Fiji and Solomon Islands country coordinating mechanisms (CCMs); these being national CCMs that are not under the PIRMCCM umbrella
- Conducting CCM audits and provision of capacity development for national CCMs
- Efficient information sharing and centralised resource depositary created through ongoing improvements in communication strategy including harnessing the use of online platform use and access for members

ⁱ Cook Islands, Federated States of Micronesia, Kiribati, Marshall Islands, Nauru, Niue, Palau, Samoa, Tonga, Tuvalu, Vanuatu

ⁱⁱ Cook Islands, Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, New Caledonia, Niue, Palau, Samoa, Solomon Islands, Tonga, Tuvalu, Vanuatu
